Why we do what we do

Tacwise

Tacwise is the dominant brand associated with hand and electric stapling and nailing tackers within the UK market. We have the widest range of quality industrial fastenings and pneumatic tackers in Europe and over 50 years of knowledge and experience.

Utilising all of our expertise we continue to create class leading tools and fasteners for the whole of Europe and beyond. Using state-of-the-art zinc and aluminium extrusion technology, learnt from the aviation industry and high performance plastics demanded by the automotive industry, Tacwise products offer the very best in performance, durability and innovation.

Committed to excellence

Care throughout the supply chain

We are committed to excellence in health and safety management and are continually seeking ways to conserve natural resources, to reduce the amount of energy we use, to eliminate pollutants and hazardous substances from our products, processes and to maximise the use of recycling.

Time and focus has been directed towards the coatings on our metal products to ensure traditional methods are changed in favour of modern eco-friendly ones without ever compromising quality. Galvanising in place of copper and nickel in place of chrome. Parts are easily disassembled in order to allow for specific recycling, such as our tackers, when compared with others, which are welded or pressed together making them impossible to repair and difficult to recycle.

We are putting the environment in front of our marketing desires so that packaging is not oversized, nor overly complicated and considerable thought into making its eventual recycling as easy as possible. Products are designed and created to achieve strength and longevity with strong materials formed into shapes able to out-perform larger heavier non eco-friendly items supplied by others.

Our worldwide customers expect us to make our designs, developments, manufacturing processes and products as energy efficient and environmentally responsible as possible. It is a continuing mission.

Like quality, environmental management is a journey without a destination. We have to think globally and act locally. After all, we are all in this together.

Stapling up to 8mm (Z1) & 14mm (Z3 & CT)

Hand Tackers

Radical design, outstanding engineering with small, large, lightweight and heavy duty models all available for the very popular 13, 53 and 140 series staples. The Tacwise programme delivers superb performance with every imaginable user comfort.

Loaded with features

All models are loaded with features including a quick release bottom loading system to make the changeover between staple lengths fast and simple. Perfect for an easy clearance in the unlikely event of a jam. All tools incorporate a stainless steel belt hook - practical when working up ladders when both hands are required to position the work piece and a personalisation window.

Quick release bottom loading system with no loose parts.

Covering the popular 13, 53 and 140 type staples.

Stainless steel belt hook and personalisation window feature on all models.

Z1-53T See-Through

Stylish, compact and lightweight but built for the professional and affordable by the hobby user too.

Z1/Z3/CT Tackers
Most other tools (extra force)
Staple firing point

Time

Linear Power Curve

Avoids that uncomfortable "snap" at the end of the firing cycle. All Z1, Z3 and CT series tackers incorporate this superb feature which reduces hand strain and improves the level of comfort during prolonged periods of stapling.

Stapling up to 8mm

Z1 - Compact Metal

These compact die-cast tools feature cutaway noses for enhanced firing access and broad comfortable grips to avoid hand strain, combined with low grasp heights to deliver the optimum in handling comfort, even for users with small hands.

Durable Die-Cast

With their unique metal sectioning to create additional strength and outstanding balance these die-cast tools are still lightweight at just 0.4kg.

Ultra compact with its neat lock-down handle

Cutaway nose   Ergonomic grip

Professional | Code: 0322

Magazine Capacity — 150 Staples | 0.9 kgs | 140 Staples 6-10mm | Pack Style — Retail Box | Trade = 10 Units / Transit = 20 Units

All steel "slap" hammer designed with few working parts for years of trouble-free operation. Popular for securing flooring underlay, plastic sheeting and breather membrane.

New heavy duty hammer up to 12mm coming April 2014

Stapling up to 40mm & Nailing up to 50mm

Just load, plug in and fire

Utilising our 50 years of knowledge, experience and expertise, our range of corded electric tackers offer the very best in performance across a range of stapling and nailing tasks. There's no need for batteries, gas cells or compressors; simply load, switch on the power and you're ready to go.

Excellence in design and engineering as standard across a comprehensive range of fastening tools ranging from small, compact and lightweight through to heavy duty nailers and staplers.

1. Compact

Our range of semi-pro and professional models are small, fast and lightweight. An ideal step-up from manual hand tackers, these compact electric tackers are highly balanced with an ergonomic design that makes repetitive stapling tasks easy and comfortable.

Perfect for applications including upholstery, insulation, picture framing, wire fencing carpeting and more.

2. Medium Duty

With tremendous versatility, Tacwise Medium Duty electric tackers offer extraordinary value for money and are a must for every tool bag. Coupling superb performance with user comfort, our Medium Duty electric tackers are extremely fast semi-professional tools capable of firing nails up to 35mm.

Hugely capable and loaded with features, these tackers are ideal for applications including cabinet assembly, door frames, carpeting, soft wood flooring and many more second fix tasks.

3. Heavy Duty NEW

The new generation of Tacwise electrics feature redesigned electronics and enhanced engineering, making them the tool of choice for the discerning tradesman.

These tools eat up second fix and reconstruction tasks with speed and precision. With unrivalled performance in their class, our Heavy Duty electric tackers boast a range of dynamic and innovative new features.

Essential for tradesmen, these tools will make light work of a range of second fix and making good tasks including flooring, sub flooring, underlay gripper, insulation and more.

Corded Electric Tackers

Supplied with either UK, Euro or other International plug/cable variations.

Stapling up to 14mm & Nailing up to 15mm

Compact Electrics

Always ready at hand these tackers are designed with the minimum of parts to enhance reliability and reduce weight which, combined with a robust chassis and body materials, result in the tools delivering maximum durability.

DIY/Semi-Pro... 53EL & 13EL

These ultra-compact corded tackers boast a host of dynamic and innovative features and are ideal for professional and lightweight applications. Featuring an all polymer body, the compact 53EL uses the popular 53 type (DIY, fine wire) staple, ideal for professionals seeking discreet fastening and light users alike and the 13EL uses the fine wire 13 type staple particularly popular in schools.

Great for retail

Compressed into a neat clam which will hang on Euro hooks/pegs or stand alone on a display shelf.

Hobby 53EL is also available as a value added kit. See page 38

Medium Duty Electrics

An essential for the busy tradesman these medium duty electrics will save time and effort day in, day out.

Suitable for a wide range of second fix and fastening tasks, these electric nailers and staplers achieve great results with minimum effort. All tools in this range feature a positive action trigger, a separate on/off switch and nose safety device which much be pressed against the work piece to fire.

NEW

181ELS

The dedicated nailing incarnation of our top-selling 191EL/191ELS Pro, the 181ELS is a versatile nailer that fires 180 nails up to 35mm.

Feature-rich and light-weight, the 181ELS is a highly practical and lightweight nailer that's perfect for repetitive nailing tasks.

Master Nailer™ 181ELS Pro Electric Nailer 180/15-35mm

191EL Ultimate Versatility

191EL Pro is a 'must have' for all professional tradesmen tackling any number of second fix and making good tasks as well as precision jobs in the workshop. Hugely popular for flooring including boarding out and soft wood floorboards.

Popular for securing glued items to avoid movement.

Light, compact size for jobs that are difficult to access.

Great for getting into tight corners. Excellent for dry wall lining with 91DP (divergent point) staples.

191EL is the tool everyone should have in their toolbag regardless of which other staple or nail guns they own. The best value, most versatile corded stapler/nailer on the market.

191EL

Firing seven different lengths of nails and four different lengths of staple, the 191EL Pro is a nailer & stapler that's perfect for a wide range of fixing applications.

Versatile, ergonomic and lightweight; the 191EL Pro is perfect for continuous nailing tasks, especially those in difficult to reach areas. Simple, easy to use and the fastest tool of its kind, it's no wonder the 191EL Pro is the UK's favourite nailer/stapler.

Stapling up to 45mm & Nailing up to 50mm

18G/50 Nailer

This dedicated nailing tool has a precision air tool construction and will accurately drive 18 gauge brads with little marking to the surface of the timber. Ideal to speed through a wide variety of tasks this will save the busy tradesman a lot of time and free one hand to guide and postition the work peice. Also ideal for a temporary fix during glue drying.

16G/45 Finish Nailer

Firing the popular 16 gauge finish nail (a heavier nail than the 18 gauge version) this tool is perfect for a wide selection of applications and in particular those requiring a heavier more secure second fix nail.

NEW

All new magazine

The 18G/50 Nailer and 16G/45 Finish Nailer both embrace an all new magazine with a high level of precision and the 18G tool featured has two viewing windows. As with all new generation Tacwise electrics there is a quick release nail gate and easy close side load system.

No gas or compressor required

Fast and convenient these second fix, dedicated nailers, are quick to load and do not require gas packs or compressors... simply load, plug in / turn on and fire. Perfect in the work shop or for the busy tradesman on the move.

Stapling up to 45mm & Nailing up to 50mm

Duo 35

A compact tool with tremendous versatility the Duo 35 gives unrivalled performance and eats up second fix jobs with speed and precision. With all-new electronics, enhanced switch-gear and improvements throughout, this nailer and stapler is another great addition to the exciting new generation of electric tools from Tacwise.
Perfect for precision as well as demanding fixing jobs, the Duo 35 has been re-designed with the tradesmen in mind so you can work on flooring, panelling or skirting, architrave and more.

The Duo 35 is your essential tool; made for second fix jobs, compact, durable and affordable.

NEW

Outstanding Quality and Performance

Our dedication to delivering design and engineering excellence has led to our exciting range of new Electric Tackers. Utilising our 50 years knowledge, expertise and experience, these tools form the vanguard of our New Generation of class-leading corded nailers and staplers. A must have for every tradesman tackling second fix, restoration and repair projects.

Duo 35 Tool Features

The re-designed Duo 35 is fully loaded with host of innovative features, making it the tool of choice for the discerning tradesman. Features include a flip-open nail gate, an air-tool magazine, a nose safety device, power light and a separate on/off switch. Compact, durable and affordable; the Duo 35 is your essential tool.
Quick release magazine   Flip-open nail gate

Stapling up to 45mm & Nailing up to 50mm

Inclined Professional Nailers

Sitting at the top of the Tacwise tool line, the 400ELS offers ultimate convenience with the inclined magazine system.

400ELS Pro

The Master Nailer™ 400ELS is fast and light and its handy angled design makes it ideal for tackling fixing tasks where elbow room or access is at a premium – such as under stairs, behind baths or sanitaryware etc. Delivering the closest thing to air-tool performance in an electric nailer, the 400ELS fires six lengths of nail up to 40mm, and at speeds of up to 30 nails per minute – more than enough for practically all purposes.

An unrivalled performance

400ELS (the all new nailer replacing 400EL) is a little different from the other Tacwise electrics. The key feature is it's angled magazine which makes the tool extremely compact and capable of firing into very tight spaces. It is also the only model to include a rubber grip and surface pad on the top of the tool and a removeable wire stand, which can be clipped on and off in an instant, positions the tool upright 'ready to go' when used in tasks such as securing floor boards and boarding out.

400ELS incorporates a rifle butt style quick release catch for rapid reloading and a unique easy access nail gate makes freeing fastenings simple in the unlikely event of a misfire.

NEW

Master Nailer™ 400ELS Pro Electric Angled Nailer 500/15-40mm

Nailing up to 40mm

Ranger 18G Brad Nailer

Offering greater precision than the well known Ranger duo tool, it is also better suited to joinery applications where it is important that the driver blade and nose safety device do not mark the wood surface. As the entry tool in the Ranger series the 18G is also the most competitively priced and offers extraordinary value.

180/15-40mm

Master Nailer Ranger 40 18G Nailer Tradesmans Pack

Professional	Code: 0966	Includes:	2 x 1.7 batteries, 1 x 1hr charger, 2000 35mm nails, goggles

Magazine Capacity	3.7kgs (inc battery)	180 Nails 15-40mm	Pack Style	Carry Case	Trade = 1 Unit Transit = 2 Units
105 Nails					

New cordless models coming soon

Ranger 16G Finish Nailer

Delivering the heavier gauge 16G finish nail which is less discreet but provides a more substantial fixing and is popular for many joinery applications. The tool is also, of course, ideal for the multi tasking builder who requires versatility on site for any number of second fix applications.

Master Nailer Ranger 40 16G Finish Nailer Tradesmans Pack

Professional	Code: 0969	Includes:	2 x 1.7 batteries, 1 x 1hr charger, 2000 35mm nails, goggles

| Magazine Capacity	3.7kgs (inc battery)	16G Nails 20-40mm	Pack Style	Carry Case	Trade = 1 Unit Transit = 2 Units
75 Nails					

New cordless models coming soon

Features

Dual nail windows allow the user to quickly understand both the nail length loaded and the number of nails remaining in the tool. Removable/replaceable soft rubber nose to prevent marking.

Staples up to 40mm & Nails up to 50mm

Versatility

No gas, air hoses or mains cables to hold you back. Ranger gives you power, fastening flexibility and total independence around site. Delivers fast turnaround, less downtime and a quality job every time.

Precision

Years and years of experience in this field have resulted in the precision manufacturing of all Tacwise staples and nails. Produced from premium quality raw materials our exacting specifications include tolerances of 0.1mm to ensure the most accurate and consistent stapling/nailing actions time after time. Our standard staples and nails suit all other major brands of stapling and nailing tools.

Colour coded

Colour Coding: useful and convenient for quickly selecting the correct fastenings for Tacwise and other popular tools.

Stapling up to 50mm & Nailing up to 130mm

Air Nailing & Stapling

We believe that design and manufacturing innovation is the key to success and we continue to refine our designs to bring you the very best tools within their class. Our aim is to develop new standards of performance utilising the most advanced aluminium, magnesium and titanium materials, to define products that do more than simply function – but that perform better and last longer.

Built for the professional

Tacwise is committed to creating the ultimate fastening product range from hand, corded, cordless, air and gas powered equipment, combined together to provide the widest quality tools and consumables programme in Europe.

Loaded with features

Each with their own powerful features Tacwise air tools are carefully designed for user safety, convenience and durability.

Many tools include a flip open quick release nail gate for clearance of a fastener in the unlikely event of a jam.

They have neat features like soft noses to avoid damaging soft timber as well as reload indicators.

Handy and easy to use controls for depth adjustment make precision tasks simple.
This small lever allows the user to quickly switch between single shot and contact trip (bump fire).

Quick release magazines of different styles mean ultra fast re-loading.

TACWISE™

Stapling up to 16mm

General Purpose & Upholstery Tackers

Unrivalled quality and performance from our top selling upholstery and general purpose air staplers. From the fastest to the lightest, we have a programme that covers all applications.

Market Leader

Probably selling more staples into the upholstery and general stapling channels than any other manufacturer, Tacwise has continued to refine its programme after many years of industry experience.

60-100 PSI   0.8kgs   71 Staples 4-16mm   Pack Style / Commercial Box   Trade = 1 Unit / Transit = 10 Units

This model is fast and well balanced. Designed for the production line environment. Incorporating every essential feature insisted upon by the most demanding of users. Quiet, reliable and extremely quick to reload.

Now available as auto/long magazine version: A71AUTO   NEW

80 Upholstery Staple Tacker   80/4-16mm

Production Line   Code: A8016V   **BEST VALUE**

60-100 PSI   0.9kgs   80 Staples 4-16mm   Pack Style / Carry Case   Trade = 1 Unit / Transit = 10 Units

Fast, reliable and the ultimate first choice for many professional upholsterers. Ideal for production line use. The wide 80 series staple provides additional fastening strength for materials such as plastic sheeting. Especially popular with our European users.

Extra Long Nose 80 Staple Tacker   80/4-16mm

Production Line   Code: A8016LN   **BEST VALUE**

60-100 PSI   1.1kgs   80 Staples 4-16mm   Pack Style / Carry Case   Trade = 1 Unit / Transit = 6 Units

Magnesium bodied stapler with an extended 50mm nose to allow for stapling into awkward areas. Lightweight, compact and with rear exhaust, this tool is a firm favourite in the re-upholstery trade.

140 Staple Tacker   140/4-14mm   NEW

Professional   Code: A14014V   **BEST VALUE**

60-100 PSI   0.9kgs   140 Staples 4-14mm   Pack Style / Carry Case   Trade = 1 Unit / Transit = 6 Units

This professional tool handles the 140 (T-50 Type) staple, commonly used in hand and electric tackers. Ideal for hand tool users tackling volume stapling tasks with standard and stainless steel staples.

## Pro Staple Remover

Production Line   Code: 0206

Pack Style / Retail Clam   Trade = 12 Units / Transit = 48 Units

Removes many types of staples from panelling, insulation & lining, upholstery, carpet underlay and many more… The ergonomic grip provides comfort during extended periods of use.

50mm Heavy Duty Stapler

Production Line | Code: G1450V | **BEST VALUE**

PSI 70-120 | 2kgs | 14 Staples 19-50mm | Pack Style Carry Case | Trade = 1 Unit Transit = 6 Units

Preferred throughout the bedding and furniture industry, this durable framing tool is a first choice. Loaded with features including firing variations, depth control and a quick release nose plate in the unlikely event of a staple jam.

Stapling up to 50mm

50mm Heavy Duty Stapler

| Production Line | Code: F1450M |

70-120 | 2.4kgs | 14 Staples 19-50mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 2 Units

Lightweight, compact and powerful this 50mm tool delivers an impressive performance. Beautifully balanced and highly reliable. Well established in many "blue chip" furniture factories. Also available with a "wraparound" front nose safety at extra cost. Can be supplied without the quick release nose plate (as per image).

Heavy Duty Wide Crown Stapler
| Production Line | Code: G1738XHH |

70-120 | 3.0kgs | 17 Staples 16-38mm | Pack Style Carry Case | Trade = 1 Unit Transit = 2 Units

This quality wide crown workhorse is primarily used for attaching packaging materials to wooden pallets. Tough, reliable and incorporating several neat features such as a magazine stabilising bar.

New model: G1738V (not featured) coming January 2014

NEW

Quick release nose plate   Easy top loading   Single shot - contact trip   Depth control adjustment

Corrugated Fastener

Premium 15mm Corrugated Fastener

| Production Line | Code: FCF15XCB |

65-115 | 2.6kgs | Corrugated Fasteners 9-15mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 5 Units

Powerful fastening tool, capable of countersinking 15mm fasteners. Easy bottom loading of any size with minor adjustment. Ideal for butt joints in cabinet and furniture frames and for door and window sash manufacturers.

64mm Angled Finish Nailer

Production Line   Code: GDA64V   **BEST VALUE**

PSI 70-120   1.8kgs   15G 'D' Head Inclined Finish Nails 38-64mm   Pack Style Carry Case   Trade = 1 Unit Transit = 5 Units

Popular on-site as well as for workshop/joinery applications. Supplied with a non marking nose safety and fast reload system, this tool is light and compact. Capable of counter-sinking a 64mm nail.

Nailing/pinning up to 64mm

35mm Headless Pinner

| Production Line | | Code: A6435 | | |

PSI 60-100　　0.9kgs　　23G 'A64' 12-35mm　　Pack Style Commercial box　　Trade = 1 Unit Transit = 10 Units

This quality, lightweight tool is perfect for fixing fine beading. Ultra slim nose for accurate pin placement. No adjustment is required to fire pins of different lengths. Rear exhaust, double trigger safety system and high durability driver.

32mm Brad Nailer　180/10-32mm　18G/10-32mm

| Production Line | | Code: C1832V | | **BEST VALUE** |

PSI 60-100　　1.1kgs　　180 (18G) Nails 10-32mm　　Pack Style Carry Case　　Trade = 1 Unit Transit = 6 Units

This hugely popular lightweight tool is accurate and reliable and offers tremendous value. Compact and versatile it can be bump fired with its contact trip valve. Fires up to 5 shots per second.

35mm Mini Brad Nailer

| Professional | | Code: CMB35PHH | | |

PSI 60-100　　1.3kgs　　21G 'Mini Tip' Mini Brads 15-35mm　　Pack Style Carry Case　　Trade = 1 Unit Transit = 5 Units

High durability nail driver system. Out-performs metal bodied versions which cost a great deal more. Firing up to 35mm mini brad nails, it has virtually no vibration/recoil. Nail reload indicator. Small nose for accurate fixing.

50mm Brad Nailer　180/20-50mm　18G/20-50mm

| Semi Professional | | Code: DGN50V | | **BEST VALUE** |

PSI 60-100　　1.2kgs　　180 (18G) Nails 20-50mm　　Pack Style Carry Case　　Trade = 1 Unit Transit = 6 Units

All professional fully featured tool including a depth adjuster. Comfortable fast and lightweight. Specified by trade professionals throughout Europe this model is already a Tacwise best seller.

50mm Finish Nailer　160/20-50mm　16G/20-50mm

| Production Line | | Code: DFN50V | | **BEST VALUE** |

PSI 70-120　　1.7kgs　　160 (16G) Nails 20-50mm　　Pack Style Carry Case　　Trade = 1 Unit Transit = 5 Units

Offering excellent value and widely accepted in the furniture manufacturing industry, this ergonomic model delivers peak performance. Fast and accurate, this finish nailer comes with a flush, quick release nose gate designed to avoid obstructing tool access in tight spaces. With essential user features it's reliable and demanded for volume nailing tasks.

64mm Finish Nailer　160/20-64mm　16G/20-64mm

| Production Line | | Code: GFN64V | | **BEST VALUE** |

PSI 70-120　　1.8kgs　　160 (16G) Nails 20-64mm　　Pack Style Carry Case　　Trade = 1 Unit Transit = 6 Units

Versatility at its best. Uses 20-64mm nails without requiring any magazine adjustment. Features a nailing depth control and a special side opening jam clearance system to keep "down time" to a minimum.

Available November 2013

NEW

Nailers & Pinners

Proven nailers and pinners that are tough and reliable. Tacwise's lightweight polymer bodied nailers are the perfect choice for all your low volume nailing requirements. As our range of quality nailers and pinners are highly specified they require little or no adjustment and so for repeated nailing time after time insist on Tacwise.

Coil Nailers

FCN57V featured here offers unrivalled performance and the lightweight magnesium alloy body provides exceptional power and complete ease of use. It is especially suited for shed and fence manufacture as its 350 nail high capacity magazine means less reloading is required.

Serious about coil nailing

This category forms a particularly important focus for Tacwise and our full tool line covers most major and niche applications with an extensive and heavily stocked fastening programme to cater for pressures of demand from our dealers and their largest users.

10 high performance coil nailers

Unrivalled

Most Tacwise coil nailers fire 4+ nails per second and can be used single handedly. This is because lightweight magnesium is used to manufacture many of the tool bodies and triple hardened internal parts facilitate rapid firing and excellent durability. Ergonomic design provides great balance and comfort and neat touches, such as external top cap crash bars help to ensure less down time than other nailers.

Versatility

Popular for traditional nailing applications such as building sheds, fence panels and pallets. Coil nailers are also a brilliant time saving solution for any number of nailing applications where speed and efficiency are desirable. High capacity magazines contain a large volume of nails and offer continuous effective operation.

Increasingly demanded within the construction industry, the ability to fire up to 400 nails without re-loading increases productivity and makes coil nailing the preferred option when compared to strip nailers which only load around 100 nails at a time.

All Tacwise coil nailers up to 90mm are light enough for single handed operation.

57mm Mini Coil Nailer

Production Line   Code: FCN57V   **BEST VALUE**

PSI 70-120	2.3kgs	2.1-2.5 Flat Coil Nails 25-57mm	Pack Style Carry Case	Trade = 1 Unit Transit = 5 Units

Highly versatile heavy duty nailer taking 25-57mm round head, wire collated coil nails in a transparent nail drum. Perfect for packaging applications including pallet reconditioning and top-decking pallets in particular. Also very popular for the construction of garden buildings.

Nailing up to 130mm

50mm Mini Coil Nailer

Production Line   Code: DCN50LHH

70-120 PSI | 1.5kgs | 2.1 Conical Coil Nails 22-50mm | Pack Style Carry Case | Trade = 1 Unit Transit = 2 Units

An exceptional tool for 2.1 diameter round head nails. Weighing a mere 1.5kgs it will nevertheless countersink a 45mm ring shank nail. Compact design with a single or bump fire trigger. Very popular in the fencing and shed industry.

50mm Coil Nailer

Production Line   Code: FCN50LHH

60-120 PSI | 2.0kgs | 2.1 Flat & Conical Coil Nails 27-50mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 2 Units

Weighing only 2kg, this tool has superhuman speed and will take 27-50mm flat and conical head nails making it ideal for fencing and shed manufacture. Single or bump fire trigger.

57mm Coil Nailer

Production Line   Code: GCN57P   **BEST VALUE**

60-120 PSI | 2.7kgs | 2.1-2.3 Flat Coil Nails 25-57mm | Pack Style Carry Case | Trade = 1 Unit Transit = 5 Units

An extremely heavy duty workhorse, this tough production line tool has a highly developed construction and specification, firing up to 400 nails without reloading. Contact trip trigger. Suitable for exhibition, pallet, crate and packaging industries.

65mm Coil Nailer

Production Line   Code: FCN65V

70-120 PSI | 2kgs | 2.1-2.9 Flat & Conical Coil Nails 32-65mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 2 Units

Ultra lightweight, this professional production line tool has a highly developed construction and specification, firing up to 350 nails without reloading. Extremely versatile as it excepts a wide range of nail diameters.

70mm Coil Nailer

Production Line   Code: GCN70V   **BEST VALUE**

70-120 PSI | 3.7kgs | 2.3-2.9 Flat Coil Nails 40-70mm | Pack Style Carry Case | Trade = 1 Unit Transit = 2 Units

This tough production line tool has a highly developed construction and specification, firing up to 300 nails without reloading. Contact trip trigger. Tool ideal for the pallet and packaging industries.

83mm Coil Nailer

Production Line   Code: HCN83P   **BEST VALUE**

70-120 PSI | 3.9kgs | 2.5-3.3 Flat Coil Nails 38-83mm | Pack Style Carry Case | Trade = 1 Unit Transit = 2 Units

Robust traditional tool for reliable and tough continuous nailing. Especially hardened working parts ensure a long and productive life. Developed for the rugged pallet and case industries in particular.

90mm Coil Nailer

Production Line   Code: JCN90XHH

70-120 PSI | 3.6kgs | 2.5-3.1 Flat Coil Nails 45-90mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 2 Units

A more specialist tool firing up to 90mm. Super-lightweight magnesium alloy body for the ultimate power to weight ratio. Nose safety designed to avoid slippage. Tough construction to withstand the rigours of continuous on-site use.

130mm Coil Nailer

Production Line   Code: LCN130V

Side handle for easy grip of this sturdy tool

70-100 PSI | 6.5kgs | 3.1-3.8 Flat Coil Nails 75-130mm | Pack Style Commercial Box | Trade = 1 Unit Transit = 1 Unit

Supplied with side handle (shown above) for two-handed operation and suspension point. This powerful nailer has a single shot trigger and good power to weight ratio. Mainly designed for large packing case, crate and cable drum manufacture. Also widely used for heavy duty pallets, framing and steel skids.

65mm Coil Nailer

Production Line — Code: HCN65P — BEST VALUE

70-120   2.5kgs   2.3-2.9 Flat Coil Nails 32-65mm   Pack Style — Carry Case   Transit = 4 Units

Outstanding power to weight ratio. Sinking a 65mm ring nail, this tough production line tool accepts both reduced head and standard (7mm diameter) head nails. Fires up to 350 nails without reloading.

Complete Versatility

The HCN65P featured here is the benchmark tool for a wide number of timber frame house applications and is particularly versatile as this single tool, without the need for any adjustment, drives both the reduced head or standard 7mm head 50mm nails used for sheathing. Whilst compact, it incorporates outstanding power and speed driving up to 65mm. A premium quality, highly recommended tool.

TACWISE™

Nailing up to 130mm

Put to the test

We admit – we're tough on our products. We have to be when they're used in busy industrial environments. They need to be able to withstand the toughest treatment, which is why we painstakingly stress test every new item and why we then hand test every single tool.

## Outstanding Quality and Performance

Sophisticated progressive tooling, intelligent electronic engineering and a commitment to precision and detail, create the greatest air tacker programme available worldwide. Our dedication to quality begins in the initial stages of design with every component machined to extra ordinary precision for years of trouble-free use.

High Performance Coil Nails

Increasingly demanded within the construction industry, the ability to fire up to 400 nails without re-loading increases productivity.

Strip Nailers

The ultimate range of angled strip nailers, offering sheer power, outstanding performance and reliability. An essential for all those tough jobs.

90mm Angled Strip Nailer

| Professional | Code: JSN90MHH |

70-120 | 3.9kgs | 2.9-3.3mm diameter 22° Plastic Collated Strip Nails/50-90mm | Pack Style | Carry Case | Trade = 1 Unit Transit = 2 Units

An extremely powerful first fix strip nailer that won't let you down. The lightweight angled magazine provides easy access in all frame construction applications day in, day out. Probably the most reliable tool on the market.

90mm 34° Angled Strip Nailer

| Professional | Code: KDH90V | **BEST VALUE** |

70-120 | 3.8kgs | 2.8-3.7mm diameter 34° Paper Collated 'D' Head Strip Nail/50-90mm | Pack Style | Carry Case | Trade = 1 Unit Transit = 2 Units

Extremely powerful and reliable, this 34° 'D' head strip nailer is very popular with timber frame house builders and is perfect for a wide variety of first fix roofing applications.

This robust tool is complimented with a range of great user features including a bumper/belt hanger and floating nose system.

Metal Connector Nailer

| Professional | Code: FRH38THH |

70-120 | 2.1kgs | 3.75mm diameter 34° Paper Collated Nails/25-38mm | Pack Style | Commercial box | Trade = 1 Unit Transit = 2 Units

A compact and lightweight tool designed for quickly locating the nail point into the holes of joist hangers and any number of other metal braces and timber construction metal links.

Nailing up to 90mm

For your heavy duty nailing tasks

These heavy duty strip nailers handle the popular and standard 34º 'D' head paper collated nails up to 100mm. Tough and reliable yet relatively lightweight by way of their magnesium alloy bodies they are perfect for a wide range of timber frame and construction tasks. Plus many applications where these longer nails are required including heavy weight decking and fencing, cable drums and steel skids, pallet and case construction.

Valuable and robust tool features

Single shot/contact trip trigger in one | Ultra fast loading | Depth control adjustment

Ranger Gas Strip Nailer

The new Tacwise Gas Ranger is a portable masterpiece. Created using years of experience producing gas tools this Ranger uses industry standard paper collated strip nails and fires effortlessly from 50 to 90mm. Beautifully balanced it can fire between 2-3 nails per second, and features a convenient digital counter to indicate ongoing servicing requirements. Tacwise is the brand name you can rely on.

Ranger Gas Strip Nailer

| Professional | Code: 1147 |
| Professional | Code: 1162 EURO |

Magazine Capacity
62 Nails | 3.7kgs | 2.8-3.3 diameter 34° Paper Collated 'D' Head Strip Nail/50-90mm

Pack Style
Carry Case | Trade = 1 Unit Transit = 1 Unit

Features an anti dry-fire mechanism to prevent nail usage when just 3-5 nails remain in the tool magazine. Highly accurate, the Gas Ranger comes with two NiMH batteries and recharging unit, and is capable of driving up to 1,000 nails per hour and up to 5,000 per day. The in-built flashing light system provides real-time information on tool performance. Has fixed term service intervals dependant upon nail usage.

Flexibility to work anywhere

Use the Gas Ranger anywhere for up to 4,000 nails on one full battery charge. Firing approximately 1,100 nails using a Tacwise premium 80ml fuel cell, the tool is ideal for timber frame erection, roof battening, stud work, cladding, joists and many other on-site and in house applications. Ranger gives you power, fastening flexibility and total independence around site. Delivers fast turnaround, less downtime and a quality job every time.

Applications

Strip Nailers / Coil Nailers / Nailers & Pinners / HD, Wide Crown & Corr Fastener / Narrow Crown / General Purpose & Upholstery

Applications listed:
- Beading & picture/mirror frames
- Boat building
- Cane/rattan furniture
- Coffin manufacture
- Construction
- Decking
- Display & shop fitting
- Door frames & skirting
- Exhibition/show construction
- Fencing
- Fire surrounds
- Cable drums and steel skids
- Fixing gripper and thresholds
- Furniture/cabinet/woodwork assembly
- Insulation & lining
- Kitchen & bedroom furniture
- Pallet/crate/packing case manufacture
- Panelling
- Pet cages, runs and enclosures
- Pine furniture manufacture
- Cabins, mobile homes, caravans
- Presentation boxes
- Saunas
- Sheds & garden building
- Shoe repair
- Skirting boards/dado to masonry
- Soft and medium wood floorboards
- Staircase construction and banisters
- Sub flooring/boarding out
- Suspended ceilings
- Theatre & film scenery
- Timber framing
- Tongue and groove flooring
- Toy manufacture
- Trellis work
- Window frames & beading

General Purpose & Upholstery — Applications

- Attaching wire mesh netting to wood
- Bed frames
- Furniture frames
- Cane/rattan furniture
- Carpet/underlay/gripper/thresholds
- Coffin linings
- Coffin manufacture
- Drawer bottoms/cabinet assembly
- Exhibition/show construction
- Exhibition/show upholstery
- Fencing
- Fixing underlayment
- Furniture/cabinet/woodwork assembly
- Insulation & lining
- Kitchen & bedroom furniture
- Office screens
- Pallet/crate/packing case manufacture
- Panelling
- Pelmets, blinds & awnings
- Pet cages, runs and enclosures
- Plasterboard
- Cabins, mobile homes, caravans
- Presentation boxes
- Roofing felt
- Sheds & garden buildings
- Shoe repair
- Sign manufacture
- Soft and hardwood floorboards
- Staircase construction and banisters
- Sub flooring/boarding out & plywood
- Theatre & film scenery
- Trellis work
- Tubs and barrels
- Upholstery & re-upholstery
- Window display/shop fitting
- Window frames & beading

BEST VALUE

7.4mm & 11.75mm Diameter Glue Guns

Hot & Cool Melt Glue Guns

Offering a strong permanent alternative for many hobby, craft, DIY and industrial fixing jobs.

Speed and durability

The 207 leads the glue gun programme. For the hobby and professional alike, Tacwise glue guns and adhesives are a superb, powerful essential for every tool bag and workshop.

All our versatile, high impact trigger fed glue guns bond almost anything in less than two minutes.

207 Tool Features

Durable 3 minute heat up melting chamber, cooling "air flow" vents, a removable non-drip push on nozzle for accurate gluing, a platform and retractable stand as well as a 4-finger trigger operation for ease and convenience.

150/202 Tool Features

Models 150/202 have handy features including insulated rubber nose protectors, on/off switches (illuminated for 202) and pressure touch feed systems for speed and reliability.

Rubber nose protector | Illuminated on/off switch (model 202) | Pressure touch feed system

150 Cool Melt Glue Gun

| DIY/Semi-Pro | Code: 0465 | Includes: 2pcs 7.4mm x 100mm clear glue sticks |

0.3kgs | Diameter/Length 7.4mm x 100mm | Pack Style Retail Box | Trade = 12 Units Transit = 36 Units

Safe, compact gun, ideal for hobby use, arts and crafts or general low volume applications. Cool melt offers a safer alternative with the adhesive running at a much lower temperature.

202 Hot Melt Glue Gun

| Semi-Professional | Code: 0466 | Includes: 1pc 11.75mm x 100mm clear glue stick |

0.5kgs | Diameter/Length 11.75mm x 300mm | Pack Style Retail Box | Trade = 6 Units Transit = 24 Units

Well balanced gun for maximum control and an easier output flow of glue.

New high wattage model (not featured) coming Febuary 2014

NEW

207 Hot Melt Glue Gun

| Professional | Code: 0003 |

1.5kgs | Diameter/Length 11.75mm x 300mm | Pack Style Carry Case | Trade = 4 Units Transit = 8 Units

Robust gun offering high performance during high volume glue output. Rear clutch trigger mechanism enables fast and steady glue flow. 2kg glue output per hour.

7.4mm & 11.75mm Sticks & 43mm Slugs

Tan Glue Slugs	20 - 35	Packaging and flooring trade high volume usage in industrial guns
Clear Premium Multi-Purpose	60	A multitude of applications. Popular for 'fabric to fabric'

Cool Melt Glue

Glue Type	Open Time (seconds)	Ideal For:
Clear Multi-Purpose	60	Hobby crafts, schools and floristry

Packaging

Great products need to be perfectly packaged too.
Our quality thinking extends from the product design and function right through to the packaging it is supplied in. With environmental needs at the forefront of our thinking we strive for eco-friendly solutions and aim to provide customers with all essential information. Packs display great consumer detail such as compatibility, function, major applications and features plus, of course, any related safety issues.
We are committed to Euro 5 labelling.

Commercial Packs

Many staple and nail packs come in both small retail versions as well as these larger commercial boxes for the tradesman using large quantities. Information includes references to popular tools from other manufacturers, translations and EAN 13 barcodes.

Carton

Styled to a high standard with tough and super clear product information, our cartons display easy product/re-order code identification and large "at a glance" content details on two sides, translations and EAN 13 barcodes. Most cartons are water resistant too.

Retail Clams

Neat "try me" clams show off tool features. Most tools are supplied with an information booklet and a starter supply of fastenings. Packaging for higher value items also includes a security device label. All with translations and EAN 13 barcodes.

Innovative and Convenient Alternatives

Aside from popular standard packs of staples and nails in both small retail and bulk versions, Tacwise also offers a number of innovative packs including its nail and staple selection packs. All are designed to provide convenience and best value for the consumer.

Floor Standing Merchandisers

Look out for these promotional stands which showcase leading Tacwise products and offer tremendous value.

Retail Tool Box

The benefits are clear to see on our bright eye-catching full colour packaging. Descriptive details of major applications, translations on the leading surface and easy product/re-order code identification for nails/staples used. Safety/warning precautions and easy reference symbols, EAN 13 barcodes as well as instruction manuals with clear illustrations.

Carry Case

Tough carry cases are the most popular form of packaging for tool protection and to retain associated components in one neat store. These cases are retailed with full colour sleeves to make clear the suitability of each tool to its prospective new owner. Incorporates all of the features of the retail tool box.

Selection Packs

A super convenient and cost effective alternative to buying single-sized fixings in bulk. These premium quality assorted staples and nails come in handy selection packs. Offering significant added value the unique packs provide a similar level of user friendliness to the drill bit and blade selection packs that are common within the tools trade.

Modular Floor Standing Displays

Intelligent; two different sized stand options combined with various accessories allow you to create a perfect display for any combination of Tacwise products. Versatile; completely versatile, all components clip together so that they can be moved or added to as the range increases and as promotions and new products need to be dominantly positioned.

Industrial air tackers sit neatly alongside small hand tackers. Fast moving consumables are easily identified by busy tradesmen. Hero products can be prominently displayed at eye level and handled in a "try me" fashion so that buyers can identify the build quality, product size and weight and appreciate product features.

Components Explained

The empty stand comes as 3 parts which are quickly clipped together plus the three logos which are easily screwed into place. The accessories are all clipped into any position you wish to create a display built to your specification. Displays can be used individually, side by side or back to back. All accessories are packed and coded singularly for convenience.

(1 metre display shown)

Rolling display

Any combination of stands can be lined up together to create a rolling display in-store. Grabbing the attention of all customers, this is a great retail selling tool and creates an exciting and professional impression to the consumer.
