The Wattage of the Variable High Performance+ panel can be adjusted from 9.5 to 32W in 1.5W steps to give a light output range from 1600 to 5600lm in cool white. Its market leading level of efficacy (175lm/W) offers savings in running cost against traditional 72W fluorescent fitting as well as many other LED panel. Its lightweight steel and PC design, with integrated non-flicker driver, means installation is simple and maintenance is minimal. With a wide range of lumen outputs It is an ideal solution for many applications: office, meeting rooms, corridors, schools/universities and retail premises.
