PCN Overview
Description

NXP Semiconductors announces a Standardized Tray Supplier Initiative for the tray configuration bulk shipments of LQFP 10x10 devices associated with this notification. The new tray initiative results in standardized tray attributes, by package size, to allow manufacturing consolidation and avoid different tray vendor mixture issues for customers. This standardized tray initiative can be rolled out across different NXP package types / sizes as future opportunities present.

** No change to tray critical dimensions **

- Minor change only to tray attributes, including:
- End tab embossment: Change from Peak to NXP logo
 - Tray temp: Meet or exceed current tray value
 - Color stripe: Change from no color stripe to Blue color stripe

Even though no change to bulk tray critical dimensions, Customer Information Notification 202201007I is issued to ensure no customer manufacturing disruption upon NXP implementation of new standardized tray for LQFP 10x10 devices purchased in tray configuration from NXP.
