

# Product Change Notification – Minor change

<b>PCN #:</b> PCN22-0031	<b>Rev:</b> 1.0	<b>Issue Date:</b> March 16, 2022																																							
<b>Purpose of notification:</b> Change of voltage regulator <b>Type of notification:</b> Minor change, for informational notice only																																									
<b>Detailed Description:</b> <p>This document informs about a BOM change of the F-66 CFast product series and provides advice on the implications as well as on any requalification effort for affected customers.</p> <p>Swissbit has been notified that Intel is ceasing production of the voltage regulators currently used in the above mentioned product series. Swissbit has selected new fit-for-purpose voltage regulators, which also require a minimal PCB adjustment.</p> <table border="1" style="width: 100%; border-collapse: collapse; margin-top: 10px;"> <thead> <tr> <th></th> <th>Current voltage regulators</th> <th>New voltage regulators</th> </tr> </thead> <tbody> <tr> <td><b>Supplier</b></td> <td>Intel</td> <td>Torex</td> </tr> <tr> <td><b>Continuous output current</b></td> <td>0.6A</td> <td>1A</td> </tr> <tr> <td><b>Operating range</b></td> <td>2.4 V – 5.5 V</td> <td>2.5 V – 5.5 V</td> </tr> <tr> <td><b>Operating Temperature Range</b></td> <td>-40 to +85°C</td> <td>-40 to +105°C</td> </tr> <tr> <td><b>Output voltage</b></td> <td>Adjustable</td> <td>Fixed</td> </tr> <tr> <td><b>Package Size</b></td> <td>2.5mm x 2.25mm x 1.1mm</td> <td>2.5mm x 2.0mm x 1.04mm</td> </tr> </tbody> </table> <p>In parallel with the replacement of the regulator for the Flash I/O supply, a load switch was removed and a LDO was added. This measure reduces the current consumption and improves the quality of the Flash I/O supply.</p> <p>Swissbit insures no change of form and fit and function compatibility. The performance values will not change. Swissbit insures full compliance and backward compatibility with the previous version.</p>				Current voltage regulators	New voltage regulators	<b>Supplier</b>	Intel	Torex	<b>Continuous output current</b>	0.6A	1A	<b>Operating range</b>	2.4 V – 5.5 V	2.5 V – 5.5 V	<b>Operating Temperature Range</b>	-40 to +85°C	-40 to +105°C	<b>Output voltage</b>	Adjustable	Fixed	<b>Package Size</b>	2.5mm x 2.25mm x 1.1mm	2.5mm x 2.0mm x 1.04mm

<b>Implementation date:</b> The plan implementation date is July 2022.																																									
<b>Recommended action:</b> No action required. Please contact your local Swissbit sales representative for support in case of any questions.																																									

## Product Change Notification – Minor change

***IMPORTANT NOTE:***

*Swissbit – as a provider of industrial products – announces and informs about every change in the product hardware and firmware. We always test backwards compatibility and assure best quality, reliability and transparency for our customers. We apologize for any inconvenience caused.*

*This Minor Change PCN serves as an informational notice and is an optional information in accordance with JEDEC J-STD-046.*
