TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

**General Product Description:**

Possible speedtec locking nut structural deviations on their inner side

**Description of Changes**

Dear valued customer, due to special post-processing steps, Speedtec locking nuts may show structural deviations at certain points on their inner side. The deviation is purely cosmetic and is not visible when the connector is mated.

Parts with structural deviation

Parts without structural deviation

**Reason for Changes:**

Part status change. These deviations occur before the surface treatment. Subsequent galvanization ensures that the technical specifications are met in full. Please see attached pictures for better explanation.
