Prima 18" Straight Outdoor Grab Bar

This award winning grab rail has been designed to assist in entering and exiting the home. The subtle colour allows the bar to blend into its surroundings and be more discreet when positioned on brickwork. The bar is fully weather resistant and non rusting. High quality, tough all plastic grab rails. Purpose designed for elderly and less able. The grab rails are available with a ribbed finish for extra grip. They are anti-slip even when wet and are always warm to the touch. The oval cross-section ergonomically matches the human grip. The Grab Bar was designed because a well-situated rail can make all the difference to the safety and confidence of the user around the home. The rails are made of robust materials and have strong fixing points because it is recognised that they are subject to some hefty pulls and sudden tugs, therefore it is essential that they are fitted competently, according to the instructions.

Features:

- Designed to assist in entering and exiting the home
- Fully weather resistant and non rusting
- Ribbed finish for extra grip
- Maximum User Weight Limit 160kg
- Subtle design
