

Heavy Duty Hand Dryers

pro-ELEC

PEL00878

PEL00879

RoHS
Compliant

Application

- After finishing the installation, and switching on the power, and the hand dryer will switch on automatically when hands are placed underneath the air outlet.
- The hand dryer blows the hot air when hands are 11cm or closer to the air outlet, and it stops working 1 second after removing hands. It will also stop working automatically after 1 minute consecutive use. To restart the hand dryer, put hands back underneath and the dryer will switch on again.
- The sensitivity of the hand dryer is set at the highest value. If it operates for too long or does not work after installation, please adjust the sensor.

Features

- The hand dryer uses microprocessor control and infra red sensor with protection against overheating.
- The nozzle swivels 360 degrees for drying hair, face and hands.

Specifications

Voltage	: 220-240V~
Power	: 2500W
Frequency	: 50/60Hz
Water splash proof	: IPX1
Airflow	: 30m/s 270 ³ m/h
