

3M™ Double Coated Tape 9191, White, 50 mm x 25 m, 0.26 mm

Part Number: 9191, White, 25M X 50MM

Overview:

- General purpose, double sided tissue tape
- High tack, high initial adhesion
- Pressure sensitive adhesive
- Easy to remove liner

Details:

- General purpose, double sided tissue tape
- High tack, high initial adhesion
- Pressure sensitive adhesive
- Easy to remove liner
- Carpet tape

'3M™ Double Coated Tape 9191, is a general-purpose double-coated tape. It features a high tack, high initial adhesion rubber pressure sensitive adhesive, a non-woven carrier and an easy to remove siliconised paper liner.

With excellent balance between high tack / initial adhesion and good room temperature shear resistance as well as good removability, 9191 has been developed as a carpet tape. It is, however, necessary to systematically evaluate surface compatibility before starting an application.
