

SIMPLE TIMER

Features:

- The easiest timer to use – no tricky segments or complex digital programming
- Countdown function – set to countdown from 15 minutes to 9 hours before the connected device is switched off
- Perfect for devices that you do not want left on such as irons and heaters
- Saves energy and prevents overcharging on phones, laptops etc
- Daily repeat function – set a countdown time and the unit will repeat it every day
- Perfect for setting festive lights you want to come on for same period of time every day
