Sales Stop for Filament Bulbs and Bulb Products in the UK

Dear Customers,

This letter is to inform you about an upcoming change in our current product range.

Due to the new UKCA regulations, it's mandatory to re-certify our products.

Unfortunately we can no longer procure filament bulbs with UKCA marking and will therefore stop selling light bulbs in the UK effective from 31.12.2022. Until 31.10.2022, you will still have the opportunity to place orders.

The following items are directly affected:

<u>Art Nr.</u>	<u>Description</u>	<u>Art Nr.</u>	<u>Description</u>
955.015.34	Bulb 7W BA15D 12V	955.840.32	Bulb 5W BA15D 30V
955.015.35	Bulb 7W BA15D 24V	955.840.34	Bulb 5W BA15D 12V
955.015.36	Bulb 7W BA15D 48V	955.840.35	Bulb 5W BA15D 24V
955.015.37	Bulb 7W BA15D 115V	955.840.38	Bulb 5W BA15D 230V
955.015.38	Bulb 7W BA15D 230V	955.840.57	Bulb 5W BA15D 115V
955.826.35	Bulb 15W BA15D 24V	964.000.25	Bulb 5W 24VAC/DC
955.826.38	Bulb 15W BA15D 230V	967.000.03	Bulb 5W 24V
955.827.37	Bulb 25W B15D 115V	955.840.01	Bulb 5W BA15D 115V

Furthermore the 827 Blinking Beacon is typically sold including the above mentioned filament bulbs and therefore will not be UKCA marked as well.

Should you require further information or have any questions please do not hesitate to get in touch.

Yours faithfully,

Julian Schmid
Product Manager
