

April 2012

From: 3M™ Protective Apparel

Subject: 3M™ Protective Coverall Product Pack Offering

There are two changes outlined in this product catalog supplement regarding 3M™ Protective Coveralls. Effective May 8, 2012 the following changes to 3M protective coveralls will be implemented.

- 1) Introduction of individually packaged 3M protective coverall products to complement the current 3M protective coverall bulk packaged range.
 - a. These individually packaged products will be sold in cases of 20 and each 3M protective coverall will be individually wrapped in an artworked bag containing complete user instructions.
 - b. 3M™ Protective Coverall 4520, 3M™ Protective Coverall 4530, 3M™ Protective Coverall 4540+ and 3M™ Protective Coverall 4565 bags have a euro slot hanger that allows bags to be hung for retail applications.
- 2) The existing 3M protective coverall bulk packed range has been assigned new product numbers to easily distinguish these products from the 3M protective coverall individually packaged products. For example, the 3M™ Protective Coverall 4510-M is now the 3M™ Protective Coverall 4510-BLK-M.

This supplement includes:

Individually packaged 3M protective coverall price page.

3M protective coveralls bulk packaged price page to reflect the new bulk range product numbers.

A product matrix summarizing the complete 3M protective coverall product offering as of May 8, 2012.

Sincerely,

Matt Linabery

Marketing Manager – Body PPE

Occupational Health & Environmental Safety Division
