

Christmas LIGHTS

We have a broad selection of budget-friendly decorative lighting options, where running costs are extremely low.

You will see the following image on product pages across our Christmas lights and fairy lights ranges:

This image means the product has been tested to see how much it will cost to run on the new energy price cap.

The good news is it is very cheap...

“Costing you as little as 49p per month” – how it works...

Example: LP12756 - 1000 LED Multi-coloured Tree Lights.

How much would it cost you to run for 30 days, assuming the lights are on for 8 hours per day?

Note: A 1,000 LED Treebright uses a 6W transformer so:

$$6W / 1000 = 0.006kW$$

$$0.006kW \times 8 \text{ hours per day} = 0.048kWh$$

$$0.048kWh \times 30 \text{ days} = 1.44kWh$$

$$1.44kWh \times £0.34 \text{ per/kWh (current energy price cap UK, exc. NI)} = \textbf{£0.49 for 30 days*}$$

Our product range provides you with fantastic options, with some lights costing you as little as **5p to run for 30 days**.

Look out for our energy-saving icon on product pages if you are interested in great value festive lighting this winter.

* Calculations are made based on using a set of lights for 8 hours per day for 30 days (as per the timer function) and based on the current cap GB's energy cap of £0.34 per kWh exc. NI. Rates are averages and will vary by region, payment method & meter type.

Contact your supplier for personalised information.

CPC SKU	Description	Cost: 8 hours/day for 30 days (£)
