PCN #: P-22-023404

Subject : Micro A relay. Additional second source supplier of copper magnet wire

Description of Change : Dear customer, TE Connectivity is continuously working on strengthening the supply chain by introducing second source supplier for the Copper Magnet Wire (Ronsen) used in the coils of the Micro A relays that are named in the attached list. These changes do not impact the relay performance. The material from the alternative suppliers complies with general specifications (IEC 60317) and our internal material specification TEC-1001647-10. TE Connectivity Sales Team will answer your questions on any additional information or clarification that may be needed in that respect.

Reason : Product improvement. Additional production source of the specified Copper Magnet Wire

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
