

SENSIRION

This information reaches you because of your inventory or orders of the EOL part: EK-F3X-CAP for SFM3xxx-AW/-D (3.000.150).

As Sensirion replaced this part with a well working new cable solution, see launch information Sept. 2021- We need to ensure now that the EOL solution disappears from the market. Otherwise we see more and more unnecessary confusion and service questions.

Sensirion decided to remove the old evaluation kit cable for the SFM3x00-AW/D products "EK-F3x-CAP for SFM3xxx-AW/-D":

- The new cable (3.000.518) should be linked instead of the old on our distributors websites
- Sensirion stopped sending those EOL cables now

Old evaluation kit cable, EOL		New evaluation kit cable		Sensirion products that can be evaluated with it
3.000.150	EK-F3x-CAP for SFM3xxx-AW/-D	3.000.518	SEK-SFM3xxx-AW/D Evaluation Kit Cable	SFM3300-250-AW SFM3300-250-D SFM3400-33-AW SFM3400-33-D SFM3200-250-AW

What to do:

Please revise your website immediately and accordingly.

Please scrap these old versions and synchronize with Sensirion intl. sales team: intl-sales@sensirion.com to replace these parts asap and free of charge.

Please kindly provide a scrap report and based on your scrapped quantities, please place a new, free of charge order at Sensirion orders team: orders@sensirion.com

Just in case of any open orders (which should not be the case), please get in touch with Sensirion order processing team as well and revise your order to the new part number.

Thanks for your immediate reaction.

Best regards,
Florian
