6" Pivoting Panel Wall Mount Cabinet, 2 Rack Spaces
Item # DPPM2

Description

The logical choice for wall mounting patch panels and network equipment, this pivoting panel mount rack is offered in two depths, 6" and 12". Innovative design with 90-degree positive stop allows punching down while fully open. Featuring abundant tie points, cables can be easily secured and organized for a professional look. This rugged steel rack is finished with a durable black powder coat. Includes rack screws and hook and loop fasteners. (Patch panels, cable management and accessories pictured are sold separately).

Features
