

19" Wall Mount Rack Cabinet 10U

Item # SBX-10

Description

If you're looking for an economical wall mount enclosure, the SBX series is the perfect choice. Middle Atlantic's SBX series wall mount enclosures offer a fully welded center section with 18-gauge steel and a backpan made with 14-gauge steel. Equipment is easily secured behind the locking front door preventing unwanted access. With a usable depth of 14 inches, this enclosure can easily house most networking switches and equipment. Ventilation slots at the top and bottom of each side improve airflow within the cabinet. Drop ship this item directly to your next jobsite.

Application

- Data Centers
- Network Infrastructure
- LAN aggregation
- IDF installations
