12" Deep Wall Mount Rack, 15 Rack Spaces
Item # WM1512

Description

For an economical rack mount solution turn to Middle Atlantic's wall mount rack frame. This simple wall mountable frame is designed with both cost and space savings in mind. The self-squaring fixed mount design is easy to install and perfect for spaces where cabinet style racks cannot fit. Rugged 11-gauge steel rails support virtually all types of communication equipment. This rack is available in two different depths and various heights. Drop ship this rack directly to your next jobsite.

Features

- 19" wall mount frame for telecom and data equipment installation
- Self-squaring design makes installation fast and easy
- Rugged 11-gauge rails provide superior strength for heavy equipment
- Black powder coat finish for durability
- Available in either a 12" or 18" depth

Application

- Data Centers
- Network Infrastructure
- LAN aggregation
- IDF installations
