

5.25" X 19" Rack Mountable Lockbox

Item # LBX-3

Description

Prevent theft of expensive gear such as test sets by securing them into a Middle Atlantic lockbox. Available in 5.25" high or 7" high versions, these lockboxes feature a keyed lockset to prevent unwanted access. The lockboxes have 9" of internal depth and 17" of internal width for storing equipment. Each box is finished in a durable black powder coat to resist scratches.

Features

- 19" Steel lockboxes for securing valuable equipment
- Fits standard 19" relay rack enclosures
- 9" internal depth and 17" width for equipment storage
- Black powder coat finish for durability
- Keyed lockset to prevent unwanted access

Application

- Data Centers
- MDF/IDF installations
- Network Infrastructure
- LAN aggregation
