

## **Cable Splicer Serrated Scissor**

**Item # CS925**

### **Description**

For technicians needing a rugged scissor and knife set, this tool is the perfect choice. Designed for long life and heavy usage, all surfaces are double-plated with chrome over nickel to prevent rust and corrosion. Made with tough Forged Steel and a Coping-Style blade this tool kit will provide years of service. The heavy-duty, genuine leather, stitched and riveted carry case features slots for mounting on a belt. Make your next installation project go faster with L-com's professional grade cable splicing knife and scissor set.

### **Features**

- Full-Size, High-Dielectric, red cushioned handle for comfort during usage
- Tough Forged Steel, Coping-Style blade for years of service
- Use for splicing wire, cutting harness ties, medium gauge wires, and electrical tape and stripping insulation
- Heavy Duty Genuine Leather Stitched and Riveted for Greater Strength
- Surfaces double-plated with chrome over nickel to prevent rust and corrosion

## Application

- Data signal transmission
- EMI/RFI rich environments
- Industrial networks
