

Middle Atlantic Power Strip, 20 Outlet, 20 Amp, 9' Cord L5-20P Plug

Item # PDT-2020TL-NS

Description

The complete selection of Middle Atlantic PDT Series Thin Power Strips consists of a range of pre-configured strips in two different lengths. In stock and ready to ship, the PDT Series strips feature multiple circuit, amperage and termination choices while occupying a minimal amount of space in the rack. These factory-assembled thin power strips with integrated J-Box are field configurable for isolated (technical) or non-isolated ground. All strips feature a lightweight aluminum chassis and a black anodized finish. These power strips are UL Listed in the US and Canada.

Features

- Factory assembled for simplified ordering and installation
