

## **RTPS Pico Soldering tip, knife 1.0 mm, MIL-SPEC, not wetable**

Item No: T0050111899

### **KEY FEATURES**

- +** For all Pico Applications with smallest Component Sizes:  
Smart high-performance tips for the smallest component work under the microscope: 0402 to 01005 (XS to S)
- +** Extremely Fast 3-Second Heat-up Time for Smallest Applications
- +** Maximum Precision:  
Short tip-to-grip distance and optimized tip shape provide maximum precision during the soldering process.
- +** Clear Identification of Smart Tips
- +** Full Process Control with Tip Lock Function
- +** Full Traceability with Tip ID Number and Integrated Data Storage
- +** Accurate Data Results with Tip-Offset Function
- +** Fast, Safe and Easy Tip Exchange
- +** Maximum Protection:  
(IPC industry standards - TM-650 2.5.33)
- +** Tool Compatibility:  
For use with WXMP5 MS smart soldering iron and WXsmart soldering station
