

**RTMS Micro Soldering tip,
chisel Ø 0.6 x 0.4 mm, MIL-
SPEC**

Item No: T0050108399

RTMS Micro tip, chisel Ø 0.6 x 0.4
mm, MIL-SPEC

KEY FEATURES

- +

 Perfect for All Micro and Standard Applications for micro and standard component sizes:
Smart high performance active tips for micro and standard components: 0504 to 1608 (M to L)
- +

 Extremely Fast 5-Second Heat-up Time
- +

 Maximum Precision:
Short tip-to-grip distance and optimized shape provides maximum precision during the soldering process.
- +

 Wide Tip Range for Every Application:
More than 40 smart universal soldering tip shapes and sizes that are connectable to just one soldering iron, with no need for additional tools.
- +

 Clear Identification Smart Tips
- +

 Full Process Control with Tip Lock Function
- +

 Full Traceability with Tip ID Number and Integrated Data Storage
- +

 Accurate Data Results with Tip-Offset Function
- +

 Fast, Safe and Easy Tip Exchange
- +

 Maximum Protection:
(IPC industry standards - TM-650 2.5.33)
