

National Instruments  
is now NI.

I have updated in our system to obsolete the below mentioned parts effective from 29th December 2023. Kindly obsolete these below-listed parts effective 29th December 2023 from our website too.

Kindly find the product obsolescence (effective 12/29/2023) for several products. Attached are the PDFs and XLS files.

I have repeated requested that we get the best-fit replacement (individual p/n) instead of the product family. For now, just obsolete the parts without replacement. If we get the replacements, we can enter them in later
