NEWlink Bluetooth Keyboard

The NEWlink Bluetooth Keyboard is an ultra-slim portable keyboard designed to be used with modern touch screen devices. The one drawback of touch screen devices is when you need to type an e-mail or document; in this situation nothing beats a keyboard. Compatible with Windows, Android and iOS this keyboard will make the ideal travelling companion.

Features

- Bluetooth Version 3.0 (Class 2)
- Operating distance up to 10m
- 78 Keys with three modes (iOS, Android and Windows)
- Requires 2 AAA batteries (not included)
- Energy saving mode: *When the keyboard is inactive for 30 minutes it will enter sleep mode. Just press any key and wait 3 seconds to activate it again.*

Ultra-thin Design
