

Item Code SX7225RB

Double gang Brush Faceplate with soft edge
(White Plastic faceplate with black brush insert)

- With rounded/soft edges to match modern electrical accessories
- Will fit flush to the wall or standard double electrical backbox
- Two sets of screws supplied for above
- White colour (RAL9003) plastic faceplate with black nylon brush
- Can accept around five audio visual cables

Brush Faceplates are commonly used to hide Audio Visual cables behind walls and so giving a clean appearance to your home rather than bundles of wires hanging down the wall or trailing around in the living room. Two plates are usually installed, one for entrance and the other for the exit of cables. Commonly these are at the top and bottom of the wall .
