# K3-RGB

USER MANUAL

Xtrfy

INSTALLATION

Connect the K3 to the USB port. Driver installation starts automatically.

SETTINGS AND FUNCTIONS

The K3 features a range of customization options and convenient quick keys. All settings are made directly on the keyboard, by pressing the FN key + the desired setting key.
RGB LED ILLUMINATION

FN + **INS** = **BACKGROUND COLOR CYCLE**

Press FN + INS to start a cycle of shifting backlight colors.

FN + **HOME** = **FIXED BACKGROUND COLORS**

Press FN + HOME repeatedly to switch between 7 different background colors.

**FN** + **PGUP** = **CUSTOM COLOR ZONES**

Press FN + PGUP for LED illumination in 6 color zones. To set the color of each zone, press FN+ PGUP again. When the NUM, CAPS and SCROLL lights in the upper right corner blink, press FN + the numbers 1–6 repeatedly to adjust the colors. When you're done, press FN+PGUP again.
FN + **DEL** = **WAVE EFFECTS**

Press FN + DEL repeatedly to switch between two different wave effects.

FN + **END** = **BREATHING EFFECT**
Press FN + END once to start the 7-color breathing effect cycle, and twice to lock the breathing effect at the current color.

FN + **PGDN** = **TYPING EFFECT**
Press FN + PGDN to start a multi-color typing effect. (Visible when typing.)

FN + ↑ ☀+ / ↓ ☀− = **ADJUST LED BRIGHTNESS**

Press FN + the up/down arrow keys to increase/decrease the brightness of the LED lighting.

FN + ← EFFECT- / → EFFECT+ = **ADJUST LED EFFECT SPEED**

Press FN + the left/right arrow keys to decrease/increase the speed of the LED effects.

## OTHER USEFUL KEYS AND SHORTCUTS

FN + ⌨ = Lock Windows key
FN + F1–F8 = Media controls
FN + F9 = E-mail
FN + F10 = Web browser
FN + F11 = Lock all keys
FN + F12 = Calculator

TROUBLESHOOTING

Make sure the K3's USB connector is firmly attached to your computer's USB port.

Connect to another USB port.

Connect to another computer.
