

Kasa Smart Thermostatic Radiator Valve

KE100

Highlights

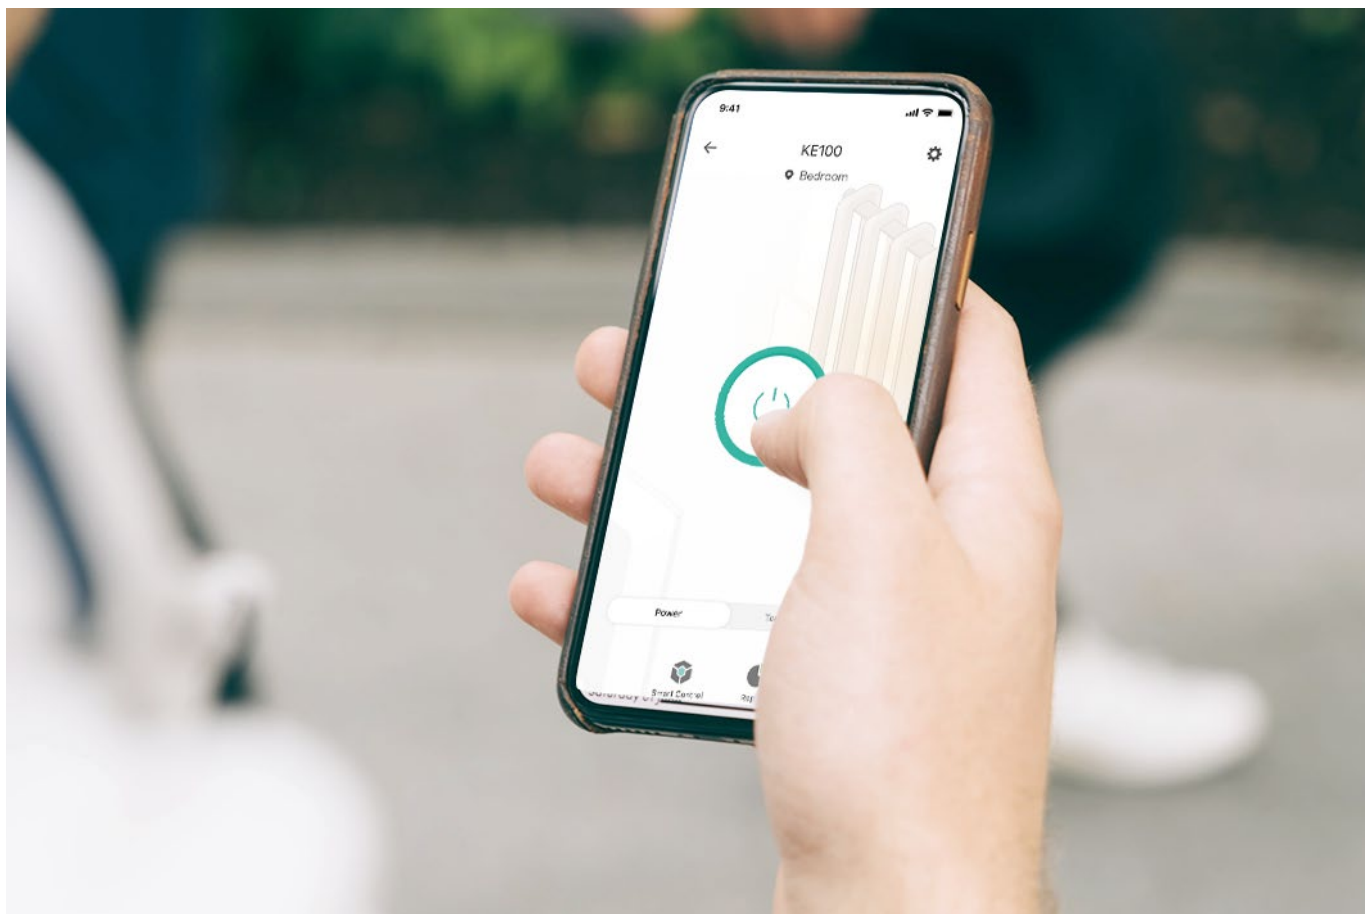

Saving Energy Made Easy

The Kasa Smart Thermostatic Radiator Valve allows you to set heating schedules based on your daily routines to make heating more efficient and save your money.

Control from Anywhere

Control all your radiators in each room from your phone. No more guessing if you left the heating on. No more heating an empty room.

Notes:
The app screen depicted is for visual reference only and does not necessarily represent actual product operation or app appearance.

Highlights

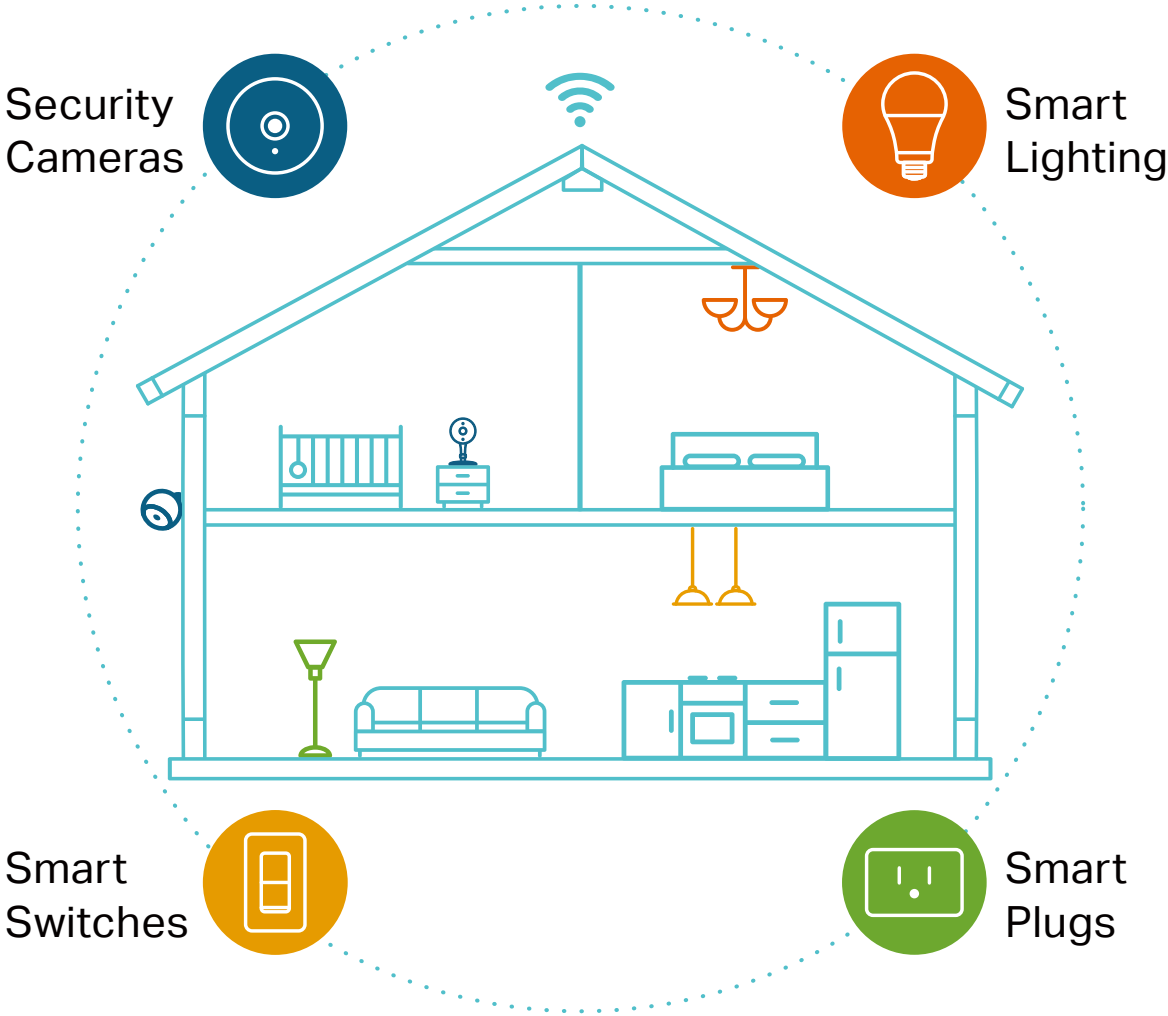

Hands-Free Voice Control

Ask Alexa or Google Assistant to fine-tune your home’s temperature. No need to get up from the sofa.

Your Home. One App.

Turn your home into a true smart home with Kasa Smart. Automate your lights and appliances with smart plugs, bulbs, and switches. Secure your home with Kasa cameras. Control it all from the Kasa Smart app.

Features

Easy to Install

- **Install It Yourself** – Simply replace your old radiator valve with Kasa and follow the step-by-step in-app guide for installation.
- **Compatibility** – Fits on most existing radiators valves (M30 x 1.5mm) with 3 adapters provided to maximise compatibility.
- **Up to 32 Radiators** – Each hub can connect and manage up to 32 radiators.

Ease to Use

- **Anywhere and Anytime** – Control your home temperature using the Kasa Smart app from anywhere, at anytime.
- **Smart Schedule** – Set schedules to automate your heating that suit your daily routines.
- **Voice Control** – Hands-free voice control via Alexa and Google Assistant.
- **Room-by-Room Comfort** – Set the perfect temperature in each room individually.

Others

- **Frost Protection** – Keep your pipes unfrozen and your house safe.
- **Child Lock** – Prevent children from managing your radiator accidentally.
- **Ultra-Long Standby** – Use the low-power wireless technologies, promising longer battery life.
