

25th July 2023

Dear Customer

Plus Opto Product Change Notice Ref: (Winstar/Date)

Please be aware of the following Product Change Notice issued by Winstar Display Co.

Our records show that you have used, or expressed an interest in, this product family in the past.

Due to end of life of some polariser materials, new polarisers will be phased in. The following document explains the proposed change which is to be effective on a rolling basis, as old materials are consumed. There may be a slight change in observed colour of the display but there will be no change to the order code / part number.

The following products are affected:

Manufacturer Part No	Plus Opto Stock Code	Description

NotificationSubject: STN LCD POLARIZER EOL

■ Issue Date: July 21, 2023

■ Description: Several suppliers announced EOL of polarizers used on STN LCD modules.

■ Effect of change

Effected Parts	Various LCD with polarizers produced by Optimax, Nitto and SAPO
----------------	---

■ Action plan

Due to the discontinuation of the production of polarizers, which are the constituent materials of the LCD. Winstar will select the LCD with similar display effect as the successors to ensure continuous supply. The relevant Last buy will be limited by the information provided by each glass factory, please contact your responsible sales person for details.

Winstar appreciates your support and understanding. We will do our best to support you during the transition. If there is any further question, please feel free to contact us. Thank you!

Best regards,

A handwritten signature in black ink, appearing to read 'John Lin', with a stylized flourish extending to the right.
