

Data sheet Single-LED.

Part No.: 10-2603.3178K

Technical data

Forward voltage kind of	DC
Forward voltage typ.	3.2 V
Forward current	20 mA
Weight	0.001 kg
Illumination colour	White
Dom. Wavelength	x: 0,31 / y: 0,32 nm
Lumi. Intensity	4600 mcd

Hints

- For LED element fitting information see Application guidelines, LED polarity
- Luminosity and wave length variations caused by LED manufacturing processes may cause slight differences regarding the illumination. The customer has to decide what resistor shall be used to the LED
