mikroPascal PRO for 8051

PID: MIKROE-1455

The mikroPascal PRO for 8051 currently supports 202 MCUs for 8051 and we are constantly adding new ones.

You can be part of the process by letting us know what microcontroller you wish to see supported next, by using our helpdesk and submitting a ticket.

Code Assistant

Control-space is probably the most widely used shortcut among programmers. Why? Because it initiates Code Assistant - programmer's first aid kit. No one needs to memorize function names.

Focus on your code, and let the syntax write itself correctly. Write function calls with one click of your keyboard. **Code assistant in mikroPascal** PRO for AVR also suggests correct names of constants, URLs, Active comments and variables, so you have it all covered. You don't ever have to get another Syntax error message.

Specifications

Architecture	8051 (8-bit)
License type	Electronic (virtual),USB Dongle
Programming language	Pascal
Silicon Vendor	Microchip,Silicon Labs

Mikroe produces entire development toolchains for all major microcontroller architectures.
Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational
security management system.
ISO 14001: 2015 certification of environmental
management system.
OHSAS 18001: 2008 certification of occupational
health and safety management system.

ISO 9001: 2015 certification of quality
management system (QMS).
