

## Product Datasheet

### HL Smart Plugs

#### Product Description

HL Smart Plugs are a range of intelligent products which allow the user to remotely power on/off via the Smart Life app.

The app includes several features, including:

- Remote control switching
- Timer function
- Set schedules
- Create groups for multiple HL Smart Plug products
- Third-party control: Amazon Alexa; Google Assistant; IFTTT

Ideal for adding intelligent functionality to standard appliances such as lamps, and heaters thus unifying your smart home, full instructions come with every product.
