

Product / Process Change Notification (PCN)

- ☐ Major change
☒ Minor change

PCN #: PCN_IndMTCI_20240217

Affected Series: WE-MTCI (7448890xxxxx)

PCN Date: November 17, 2023

Effective Date: February 17, 2024

Change Category:

- ☐ Equipment / Location
☒ General Data
☐ Material
☐ Process
☐ Product Design
☐ Shipping / Packaging
☐ Supplier
☐ Software

Data Sheet Change:

- ☒ Yes ☐ No

Attachment:

- ☐ Yes ☒ No

Description and purpose of change:

As a datasheet information amendment, the position of components in the reel must be corrected since it is not represented correctly as actual position in production. Therefore, feed direction of components will be adjusted in datasheets to represent real position.

Detail of Change:

Before change, the parts are represented in the datasheets in a way that marking is parallel to the feeding direction and the SOW (starting of winding) of parts are represented in the left upper corner (end side).

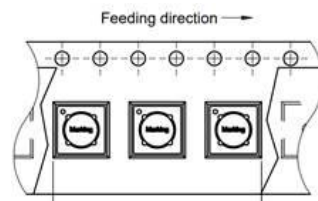

Figure 1: Before datasheet correction.

After change, the parts are represented in a way that marking direction is perpendicular to the feeding direction and the SOW (starting of winding) of parts are represented in the right upper corner (start side).

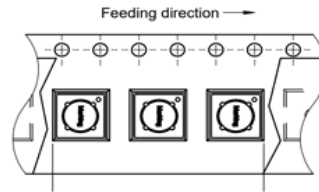

Figure 2: After datasheet correction.

Reliability / Qualification Summary:

There will be no change of the product, therefore no additional reliability or qualification testing will be performed.
