

## TECHNICAL DATA

# PLS 5/8-11 Elevator Tripod

## Key features

*"If you use your laser as hard as I do, you will appreciate the engineering that went into this tripod... Before even opening the box, I could tell by the weight that this was not an inferior product. The legs are heavy duty with no play in the extendable legs. The elevator cogs are perfectly machined for precise alignment. The laser mount swivels 360 degrees with ease. Don't waste your time with the lesser expensive tripods as they will not perform accurately." - Verified Customer*

- Lightweight and durable
- Inter-locking legs
- Made for interior work with rubber feet
- Leveling bulls' eye

## Product overview: PLS 5/8-11 Elevator Tripod

The PLS 5/8-11 Elevator Tripod is lightweight and durable and works with all PLS laser levels.

Made for interior work, perfect for ceilings up to 9' 6"

- Tripod base thread 5/8-inch x 11
- Tripod height collapses to 26-inches and extends to 114-inches.
- Use with laser level

Additional tool features

- Includes an adapter that converts the 5/8 X 11 thread to a 1/4 X 20 thread for maximum utility.
- Compatible with: all 5/8-11" or 1/4-20" thread laser levels or devices
