

FFC/FPC Connector Selection Guide

GCT offer a range of Flat Flexible Cable (FFC) and Flat Printed Circuit (FPC) connectors in 0.30, 0.50 & 1.00mm pitches, horizontal and vertical orientation and numerous locking styles. All are Zero Insertion Force (ZIF) designs. Connectors accept FFC which GCT can also supply in 0.50 and 1.00mm pitches.

A wide range of special cable options are available, such as shielded, high temperature and folding/bending.

FFC Cable Selection Guide

GCT offers a comprehensive range of 0.50mm and 1.0mm Flat Flexible Cables available in standard lengths from 30mm thru to 304mm across a variety of conductor counts. Ideal for applications including LED screens, medical devices, test and measurement, computing devices and peripherals, industrial, consumer products, navigation and EPOS systems, these cables are offered in same side and opposite side contact options.

The cables feature flame retardent white polyester insulation around a tinned copper conductor and benefit from blue polyester supporting tape at the conductor ends. Additionally the UL20706 rating is marked on the cable insulation thus confirming the -40 to +105 °C operating temperature capability.

0.5mm FFC Cables			0.5mm pitch SMT FFC Connectors		
Available in 04 thru 50 conductor widths			Vert - Slide Lock	Horz - B/ Flip Lock (Dual Contact)	Horz - F/Flip Lock (Bottom Contact)
Cable Length (mm)	Contact Configuration		FFC2A32 (positions)	FFC2B28 (positions)	FFC2B35 (positions)
0030	Same (A)	Opposite (D)	04 - 60	04 - 40	04 - 60
