Product Description

So fast. So much battery. Snap, share, shop, stream – do it all at your pace with 5G² connectivity. Take stunningly clear shots with AI-powered imaging and get them on your socials fast. Go for days without charging and for years without worry – the 3-day battery³ will take you through the weekend, while QuickFix repairability means you can make repairs at home and keep your phone for longer. 5G connectivity Fast network speeds, powered by the Snapdragon® 480+ 5G chipset. Big screen, big audio 6.56” HD+ display and OZO Playback for immersive videos and music. Stunning photos Using AI algorithms, the 50 MP camera takes shareable shots, day or night. 3-day battery life Forgot the charger? Nokia G42 5G will see you through the weekend. So fast Unlock the power of 5G and enjoy browsing, shopping, and sharing photos without the lag. And, with up to 3 days of battery life,³ you can get a lot done between charges. Photos So clear The rear triple camera works with our latest AI algorithms to make the most of any lighting condition, so you’re ready to snap and share on your socials, day or night. And when shooting video, OZO 3D audio capture will make sure they sound as good as they look. Screen and sound So entertaining Enjoy the view with a 6.56” HD+ display and a 90 Hz refresh rate for smoother scrolling. And with bigger audio powered by OZO Playback, you won’t miss a beat. If you find yourself somewhere noisy, audio boost mode for the loudspeaker elevates the sounds you want over the ones you don’t. QuickFix So fixable Ever dropped a phone and had to live with a cracked screen? There’s a better option. Thanks to its QuickFix design, Nokia G42 5G can be repaired at home. All you need is a few spare parts and tools from iFixit. Performance So seamless With virtual memory feature, you get to dedicate 2 GB of storage to be used as extra RAM which helps your phone run smoothly. The TL;DR of it is: running a lot of apps at once? Turn this on and feel the difference. Android™ 13 So secure With Android™ 13, you have more control over what information apps can and can’t access including specific photos, videos and clipboard history. With up to 3 years of monthly security updates, you won’t be worrying about ‘outdated protection’ any time soon.
