

The Yale Safe Collection

You value it, We protect it.

Yale. You value it, We protect it.

At Yale we've been looking after people's homes and their favourite things for over two hundred years. We understand that the trusted form of security is the freedom to enjoy living life to the full, without worry. The Yale Safe Collection has been designed to provide just that. As one of the world's best known, and preferred, leading lock brands we follow our mission to help consumers live more carefree lives. So we have combined the latest technologies and materials with centuries of experience to create safes that meet the most demanding requirements.

Today Yale is the brand behind locks of every design and function in over 125 countries. All over the world, people are actively securing their home or their business with the name they trust the most, Yale. That's why we proudly call Yale "the world's favourite lock".

Maximum Security Motorised Safes

At Yale, we pride ourselves in protecting the things that matter the most to you. The Maximum Security Motorised Safes will keep your most important belongings secure and safe with additional anti-drill plate in key areas and laser-cut door for protection against use of tools to open the safe for maximum security.

You can gain quick access with pin code and scare away any unwanted visitors with lock down for one minute after 3 incorrect attempts. The range has also been Sold Secure Silver & SKG** Approved to provide the best in security.

The internal light gives you clear visibility of your valuables and the internal hooks makes it more convenient for you to keep your things organised and clearly displayed.

Whether that's your documents to your new home or a sentimental belonging, we have the right safe to suit you.

Key features

- Anti-drill plate and laser-cut door for protection against use of tools to open the safe for maximum security
- Lock down for one minute after three incorrect attempts
- Clear LCD keypad display with pin code access
- Internal light for contents to be easily seen

Additional features

- Motorised locking mechanism with two anti-saw locking bolts (20mm)
- Maximum security mechanical over-ride lock that includes 1 double bitting key
- You have the option to use a 9V battery to gain emergency access to your safe (9V battery not included)
- Automatic door opening mechanism

Fire Safes

The Yale Fire Safes have been designed with your peace of mind in focus. The entire range has been built and tested to withstand intense heat of 927 degree Celsius, humidity and resist attack, leaving you the knowledge that your most important documents are in good hands.

The Yale Fire Safes are built with the latest technology in fire insulation, which provides a high security rating and allows more room for your valuables inside your safe due to the thinner wall thickness.

In addition to the Yale Fire Safe, there is the Yale Data Fire Safe that contains an additional "safe within a safe" insulation layer. This protects extra sensitive digital data, whether they are on an external hard-drive, phone and smart tablets.

Key features

- Tested to with stand minimum 1 hour of intense heat at 972 degrees
- Emergency battery opening and low battery alarm signal (9v battery not supplied)
- Touch screen keypad wakes with over 1 billion possible codes

Additional features

- You can choose between 1 - 48 hours lock down mode for added security whilst away from home
- The option to switch the sound off when entering the code or when the safe is opening
- Hinge protected for extra security - Locking points on both sides of the safes, 16mm locking bolts in the frame and 18mm fixed bolts on the hinge side

Guest Safes

The Yale Guest Safes are an ideal addition to a guest house or a spare bedroom in your house. With the LCD display it has the ability to operate a 3 to 6 digit master code or you can create a guest code if you prefer.

When it comes to changing the battery of the safe, these guest safes allow you to do this with ease as it has an external battery for your convenience.

You also have the option to choose from a small guest safe, medium sized or laptop sized safe in order to find the right safe to suit your needs.

Key features

- Opens with pin code, mastercode or key
- LCD display and the ability to operate a 3 to 6 digit main user code or guest code
- Safe lock down for 5 minutes after 3 incorrect attempts
- Batteries positioned on the outside (no need unlock the safe to change them)

Additional features

- Electronic lock with handle for easy opening
- The option to switch the sound off when entering the code or when the safe is opening

Value Safes

Value safes provide you with a good level of security for those important belongings such as passports, birth certificates, cards, cash and keys.

The safe has a 3 to 8 digit user code which is easy to program and includes a mechanical over ride key for emergency access.

The safes come in a variety of sizes from mini to laptop variants. There are also extra large office safes which include hooks for multiple key storage and indexing system. Allowing you to choose a safe that best suits your needs.

Key features

- Electronic lock with 100,000+ combinations, 3 to 8 digit code. User code can be numbers or letters e.g. a memorable name or word
- Locking mechanism: Anti-bump solenoid
- Mechanical over-ride: x2 radial key to open the safe

Additional features

- Two LED light indicators, green to open, red for error or low battery
- One-touch reset button inside the safe to reset the code

Alarmed Value Safes

The Alarmed Value Safes keep all your precious belongings safe and provides you extra security with the integrated 130dB alarm. Protect sensitive information, or your most valued personal possessions with our solid steel construction Yale safes.

Key features

- Integrated 130dB alarm is triggered if the safe is tampered or after 3 incorrect code attempts
- Electronic lock with 100,000+ combinations, 3 to 8 digit code. User code can be numbers or letters e.g. a memorable name or word
- Mechanical over-ride: x2 radial keys to open the safe

Additional features

- Locking mechanism: Anti-bump solenoid
- Two LED light indicators, green to open, red for error or low battery
- One touch reset button inside the safe to re-set the code
