

## Heatsink Kit for Raspberry Pi 4B

SKU:FIT0651

### INTRODUCTION

Are you still bothered by the Raspberry Pi fever problem? Don't worry, we have prepared a cooling solution for the Raspberry Pi 4B. Aluminum heat sink is adopted due to its highly cooling feature and excellent resistance to oxidation, which can effectively avoid chip over-heating problem.

The surface is designed with slotting, which is more conducive to the discharge of heat. The heat sink comes with back glue, easy to use.

## SPECIFICATION

- Dimension
  - Black heat sink with adhesive (L): 14.4 \* 14 mm / 0.57 \* 0.55 inch
  - Black heat sink with adhesive (M): 14.3 \* 9.9 mm / 0.56 \* 0.39 inch
  - Black heat sink with adhesive (S): 9.1 \* 9.1 mm / 0.36 \* 0.36 inch
- Adhesive in heatsink
- Material: aluminum

## SHIPPING LIST

- Black heat sink with adhesive (L) x1
- Black heat sink with adhesive (M) x1
- Black heat sink with adhesive (S) x2
