**Description of Change:** Transition of the production of LVAC TUBULAR Power Capacitors from Blatna/CZ to Loni/IN. Part numbers/series affected: PhMKP with part suffix 5341 will change to 5347; PhMKPg with 5343 to 5348; ACMKP with 5343 to 5348. Additionally, and irrespectively of production change also change of the middle section of the part numbers from 5 digits to 6 digits (also for PhMKDg triangular capacitors). Part numbers/series affected: Blatna/CZ plant: 5341-xxxxx-xx to 5341-xxxxxx-xx; 5343-xxxxx-xx to 5343-xxxxxx-xx and triangular types 5345-xxxxx-xx to 5345-xxxxxx-xx and Loni/IN plant: ACMKP... / PhMKPg 5348-xxxxx-xx to 5348-xxxxxx-xx and oil-filled PhMKP 5348-xxxxx-xx to PhMKP 5347-xxxxxx-xx.

**Reason for Change:** Streamlining of the production, and change of part numbers because of software update.

**Expected Influence on Quality/Reliability/Performance:** We already produce and supply LVAC capacitors to local and international customers from our plant in Loni/IN in parallel to our plant in Blatna/CZ since many years. The capacitors are produced in Loni/IN with the same released raw materials, same production process, same quality checks and same specifications. Therefore, there is no difference in quality and fit/form/function of the capacitors. The change will not have any effect on the cost and product performance. Also, your contact persons at ESTA Vishay will remain the same. There will only be a change in the country of origin and part numbers on order confirmations / delivery notes and invoices.

**Part Numbers/Series/Families Affected:** Please see materials list on the succeeding page.

**Vishay Brand(S):** Vishay ESTA

#### Time Schedule:

Start Shipment Date: Wed Oct 2, 2024

**Sample Availability:** Starting mid of 2024 - subject to stock availability on previous production plant and of former part numbers

**Product Identification:** Change of production line and part No: 5341-\*, 5343-\*; Only change in part No.: 5348-\*, 5345-\*

**Qualification Data:** Upon request

**This PCN is considered approved, without further notification, unless we receive specific customer concerns before Tue Apr 30, 2024 or as specified by contract.**
