

9574

Bevel Squares with Steel Blade

PRODUCT DETAILS

- Steel blade
- Hardened blade
- Flexible blade
- Aluminium body
- Used for setting and transferring angles
- Comfortable metal handle with an end screw for locking bevel in the required position
- The bevels are designed to create a bevel edge with ease or replicate an existing angle, such as on stairs
- Used for transferring a measured angle to a work piece for cutting or machining
- The blade can be tightened with the wing screw at the end, this also doubles as a hanging hole in storage
