PCN

Change of supplier for RM coil former types

The existing source of supply for EPCOS coil formers is terminated and the previous supplier is released again for the following coil formers.

The coil formers from both suppliers are identical in terms of dimensions and capacity. There is no impact on the lead time as the suppliers have the same production capacity. The new tools increase delivery reliability and improve product quality.

Affected products

Ordering code	Type	New 18-digit ordering code suffix
B65808E1508T001	Coil former RM 6	B65808E1508T001V01
B65812C1512T001	Coil former RM 8	B65812C1512T001V01
B65814C1512T001	Coil former RM 10*	B65814C1512T001V01
B65816C1512T001	Coil former RM 12*	B65816C1512T001V01
B65888C1512T001	Coil former RM 14*	B65888C1512T001V01

*The construction of new tools is in progress

Scheduled date of change: August 26, 2024

Estimated date of first deliveries: August 26, 2024

4. Description of change TDK terminates the existing source and switches to the former source which was rereleased for the listed coil formers.			
5. Effect on the product or for the customer (benefit, quality, specification, lead time) The coil formers from the current supplier and the new supplier are identical with respect to their dimensions and performance. No effect on the leadtime as the previous source is capable for the same capacity. Stabilization of the delivery reliability and quality improvement due to new toolings.			
6. Quality assurance measures / risk assessment Dimensional measurements, solderability and appearance tests performed successfully.			
7. Scheduled date of change August 26, 2024			
8. Estimated date of first delivery of changed product August 26, 2024 If TDK Electronics AG does not receive notification to the contrary within a period of 10 weeks, TDK Electronics AG assumes that the customer agrees to the change. <input checked="" type="checkbox"/> For an interim period we cannot rule out that old as well as new products will be shipped. <input type="checkbox"/> Future shipments can consist of old and new products as the new changed product is used as an alternative to the old product.
