

6ft (1.8m) DisplayPort to DVI Cable - 1080p Video - Active DisplayPort to DVI Adapter Cable - DisplayPort to DVI-D Cable Single Link - DP 1.2 to DVI Monitor Cable Converter

Product ID: DP2DVIMM6BS

The DP2DVIMM6BS 6ft active DisplayPort to DVI converter cable lets you connect your DisplayPort-equipped desktop or laptop directly to a DVI monitor or projector with no additional adapters or cables required -- a cost-effective solution for enabling your new DisplayPort computer to work with an older DVI monitor or projector.

For guaranteed compatibility with virtually any DisplayPort output the active DisplayPort to DVI adapter supports multimode (DP++) as well as single-mode DisplayPort signals. Unlike passive adapters, this ensures the DP2DVIMM6BS can be used with graphics cards that are not capable of outputting multimode DP++ signals, such as ATI Eyefinity cards.

Plus, because the converter cable supports video resolutions up to 1920x1200 you can convert a DisplayPort video source to DVI without sacrificing video quality.

The DP2DVIMM6BS is backed by a 3-year StarTech.com warranty and free lifetime technical support.

Note:

This adapter is not compatible for use with the Apple Cinema Display.

Certifications, Reports and Compatibility

Applications

- Use with single-mode DisplayPort video outputs that are not capable of outputting multimode DP++ signals, such as

ATI Eyefinity video cards

- Connect your DVI display device (monitor, projector) directly to a DisplayPort output device
