## MOTION SENSOR LIGHT PELL0518

### INSTALLATION

- Suitable for internal use only.  
Attach the rear cover plate to the wall using the self adhesive pads in the required location noting the marked arrow indicating which way is up. The plate is also pre-drilled for attaching using two screws (not supplied).
- Insert 3 x AAA batteries into the light noting the marked polarity.
- Fit the light to the plate engaging the keyhole slots onto the lugs on the rear cover.

### BATTERY REPLACEMENT

- Slide the light upwards to remove from the rear cover to access the batteries
  - Always replace all batteries of the same type or equivalent at the same time.
  - Never dispose of batteries in a fire.
- Remove batteries if the item is not to be used for long periods.

### OPERATION

- When the motion sensor detects movement the LEDS will illuminate for approximately 30 seconds.

### SPECIFICATIONS

Power	1.5VDC 3 x AAA batteries
LEDs (non-replaceable)	3 x warm white, 20lm (approx)
Dimensions (mm)	76w x 76h x 30d
