

USB

2-in-1 USB to Gigabit Ethernet Cable

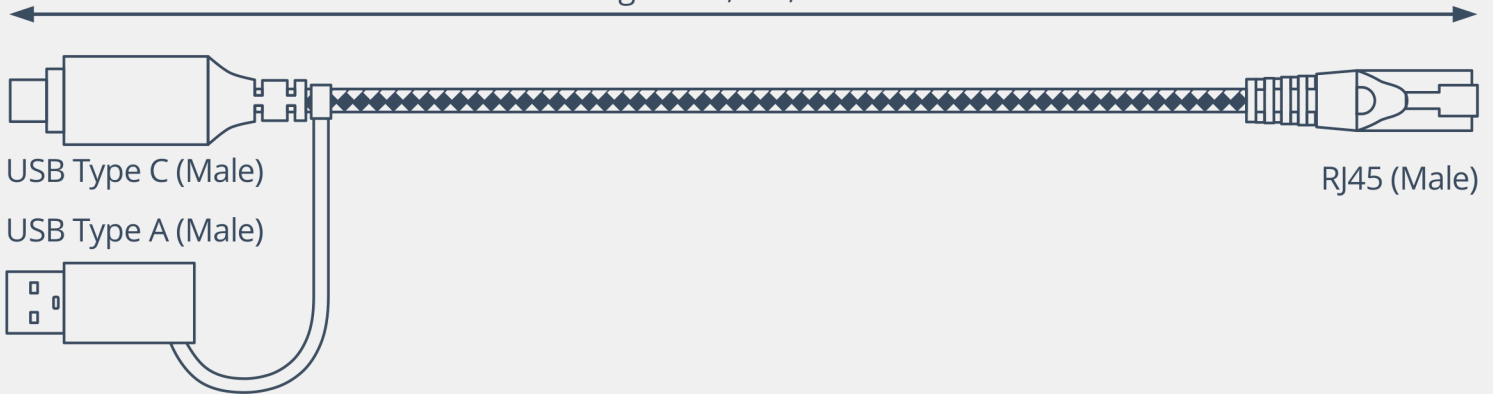

The NLUSB3C-EGxx range of USB to RJ45 Gigabit Ethernet cables are designed to allow you to connect a laptop or desktop computer without an RJ45 socket to a wired Ethernet port with a single cable. It features an attached USB Type A adapter, so it will work in both a USB-C and USB-A port. The cable supports network speeds up to 1Gbps and features a durable cotton braiding.

Specifications

- USB-C Connector with USB-A Adapter
- Maximum Transmission Rate: 1Gbps
- Aluminium Housing
- Supported OS: Windows 11, 10 / MacOS
- Cotton Braided Cable
- Available in 2, 3, 5 and 10m lengths
