2. Description of News

We will change the packaging of several guiding and coding pins from the Chinese production plant to a higher automated process. This will cause a slightly different packaging layout.

In case of questions or concerns, please do not hesitate to contact our technical support.

3. Implementation
The new process will be implemented for production starting November 2024. We will prevent mixed deliveries by emptying the warehouse first. The change of the packaging will have no influence on the product itself and all technical characteristics will stay the same.
4. Datasheet
For updated specifications and drawings, please check the eCatalogue.
