

RoHS
Compliant

Description

Specially designed to work with the Ultrasonic cleaning process to remove soldering flux, water damage and other contaminants from printed circuit boards.

Create up to 10 Litres of Ultrasonic Solution from 200g of concentrate, powder concentrate offers excellent value over traditional pre-made solutions and is easier to store and dispose of.

Features

- Water soluble concentrated powder – mix at a ratio of 20g per litre
- Built-in water softeners – dilute with tap water
- Recommended cleaning temperature between 40°C to 80°C
- Can be filtered and re-used to prolong life
- Will safely remove a variety of soldering fluxes as well as dirt, dust and grime
- Can be used to remove water damage and many other contaminants
- Safe to use on most metals including brass, aluminium and copper
- Suitable for professional and amateur use
