# CAT5e Female To Screw Terminal Keystone Socket

**Category 5e screw terminal keystone socket (FKscr)**

This screw terminal keystone socket is designed for field termination, repair and prototyping applications and for integration of non-standard data cabling into structured cabling infrastructure. Capable of Category 5e performance, it manages a simple and reliable connection without the need for soldering or special tools.

**Features:**

- Category 5e female connector to 8 x screw terminals

- Easy-to-read marking simplifies correct termination

- Screw terminals accommodate wires 0.4-1.3mm (16-26 AWG) diameter

- Snap in keystone jack provides a clean and neat, fast and easy installation in a wide range of housings, outlets and patch panels

- Available as part of our Panel Mount, D UNIVERSAL and Euro/6c faceplate ranges

- Note: cores should be stripped before insertion into screw terminals.
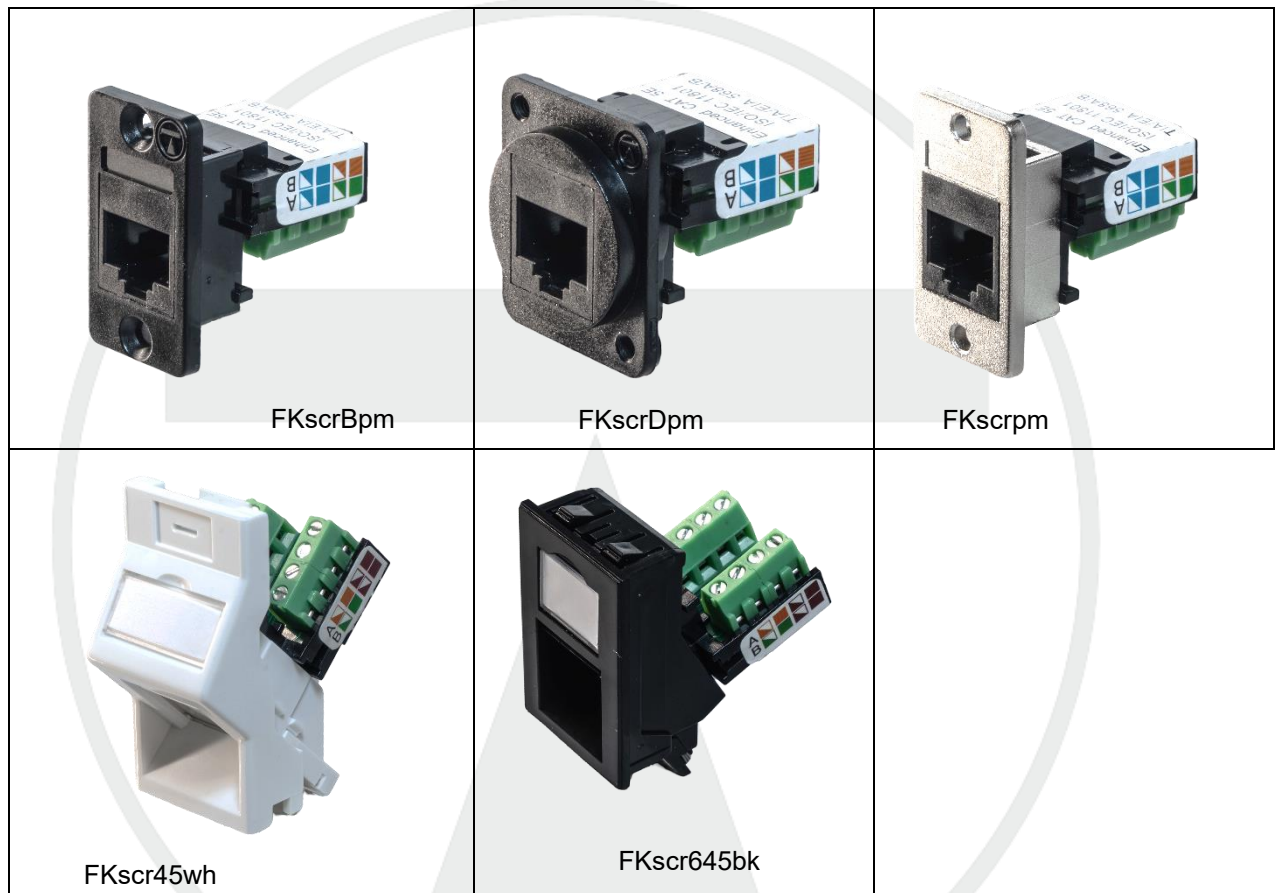

**Specifications:**

- Net weight (including primary packaging): 8g

- Dimensions: 45x25x20xmm

- Colour: Black

- Materials: ABS+PC

**Packaging:** Packed in individual polybags then in bags of 20
