

SIMPLE MECHANICAL KITLOCK

Introducing the KitLock KL10. Designed with simplicity in mind, the KL10 offers mechanical keyless access suitable for a variety of lockers, cabinets and cupboards.

A durable, compact, easy to use mechanical lock. Designed to be both retrofitted or installed on new cabinets. Changing or resetting the code can be completed easily whilst the lock is still on the door, or if the code has been forgotten it can be retrieved using the master key.

Easy to
install

Mechanical
keyless access

Two year
guarantee*

Private Function
Only

FEATURES

- Easy to install and retrofit
- Locked and unlocked indicators
- 4 wheel code combination
- Up to 10,000 unique combinations
- Black powder coated finish
- Private function only
- Easy grip outer casing

- Suitable for internal use only

FUNCTIONS

Private Function

This function is used where the same code will be repeatedly used, e.g. an employee with the same locker/drawer in the workplace.

Code Retrieval

This function requires the Master Key (sold separately). Allows a code to be retrieved should it be forgotten or emergency access is required.

PRODUCT DIMENSIONS

Fixing Pack

The KL10 is provided with a straight cam, hex nut and screw as standard. An additional fixing pack is available to purchase containing a cranked cam, metal clip, washer and two screws.
