USB LED Strip 5V DC

2 types of TV kits – Choose WIFI or Bluetooth

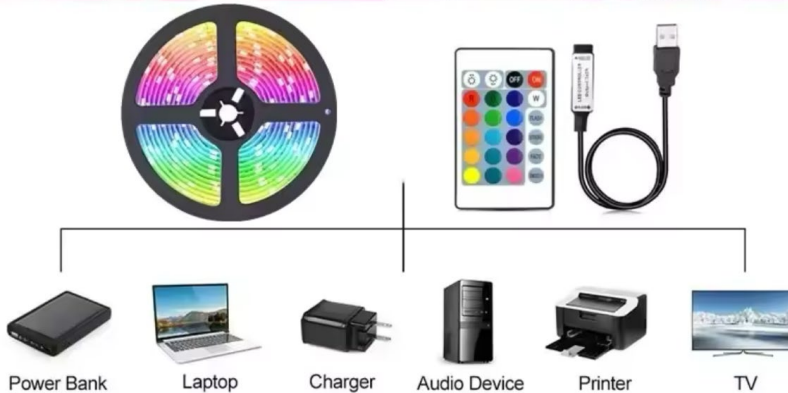

Power this range of LED strip from any USB socket. This LED strip lighting operates from a 5V DC input.

Perfect for connecting to the back of your TV to provide ambient light. Available in colour changing (RGB) kits, or in single colour 1 metre and 5 metre length options.

This LED strip typically requires 10 watts per metre (2A at 5V)

Please check the output power rating of your USB device to ensure it can deliver enough power for the LED strip. If not enough power is provided to the LED strip you may experience reduced brightness levels or the lighting will not turn on.

Please refer to part number TP1160-2A as a suitable UK charger for 1 metre lengths of the single colour LED strip (CPC order code PW0623)
