

# PRO-ELEC

**DESK LAMP DIMMABLE  
CCT CHANGING WHITE 9W  
Model PELL0502**

Please read these instructions carefully before use and retain for future reference.

## IMPORTANT SAFETY INFORMATION

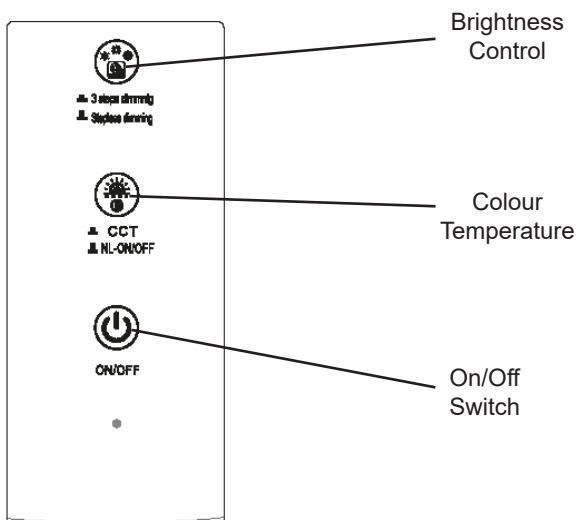

- Check that the voltage on the rating label matches the mains voltage supply before connecting the PSU to the mains.
- This product is for indoor use only.
- The lamp contains non-replaceable LED's and so at the end of their life the lamp should be replaced.
- Do not look directly into the LED's as it may damage your eyesight.
- Always disconnect from the mains supply when not in use.
- Place on a flat level surface before use.

## OPERATION

- Connect the PSU DC output to the socket on the lamp and connect the PSU to the mains and turn on the power.
- Touch the ON/OFF switch momentarily to turn the lamp on or off.

**NOTE:** When powering on again the initial LED state is set at whatever colour temperature and brightness when last powered off.

- Short press the CCT button to switch between colour modes.
- Three modes are available:-
  1. Warm light (3000K)
  2. Day light (3800K)
  3. Cool light (5800K)
- Press and hold the CCT button to switch on the night light mode which is the warm light (3000K) and the lowest brightness setting.

- Short press the brightness control button to switch between three preset brightness levels.
- Press and hold the brightness control button to start the stepless dimming function.
- Release the button when the light output is at the desired level.

## **SPECIFICATIONS**

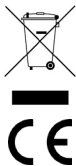

- This product contains a light source of energy efficiency class F.

Power	9W
Colour Temperature	3000K / 3800K / 5700K (warm light/day light/cool light)
Lumens	520lm (Max)
PSU Input Voltage	220-240V~50/60Hz
PSU Output Voltage	DC 12V 600mA
Classification	Class II for complete lamp

- The position of the lamp can be rotated over a range of 100 degrees by turning the main tube relative to the base and the angle of the lamp can be adjusted by bending the upright over a range of 80 degrees.

## **CLEANING AND MAINTENANCE**

- Clean the product with a soft, dry cloth only.
- Do not use any solvents or abrasive chemical cleaners.

#### **INFORMATION ON WASTE DISPOSAL FOR CONSUMERS OF ELECTRICAL & ELECTRONIC EQUIPMENT.**

When this product has reached the end of its life it must be treated as Waste Electrical & Electronic Equipment (WEEE). Any WEEE marked products must not be mixed with general household waste, but kept separate for the treatment, recovery and recycling of the materials used. Contact your local authority for details of recycling schemes in your area.
