TCP PLINTH WITH REMOTE THERMOSTAT

The TCP 2000W Plinth Heater is a compact, energy-efficient unit designed to fit seamlessly into kitchen plinths or under cabinets. It features 2 heat settings plus a fan-only mode, a built-in thermostat, and overheat protection for safe, year-round comfort. Easy to install with a 1.7m pre-wired cable and rubber feet for quiet operation, it delivers powerful warmth without taking up floor space.
